CUMULATIVE INDEX 2000

Volume 30

January COMMON NEUROLOGIC PROBLEMS, pages 1–255
March CLINICAL RADIOLOGY, pages 257–471
May EMERGENCY SURGICAL PROCEDURES, pages 473–702
July MANAGEMENT OF PAIN, pages 703–970
September INFECTIOUS DISEASE AND THE EYE, pages 971–1173
November RESPIRATORY MEDICINE AND SURGERY, pages 1175–1390

Note: Page numbers of article titles are in boldface type

Abdomen, acute, intra-abdominal emergencies and, 482–483
management of, 912–914
and thorax, radiographic appearance of, effect of pharmaceuticals on, 349–377
bite wounds of, 673
peracute, barium-impregnated polyethylene spheres in, 460–461
Abdominal cavity, feline, in cardiac disease, noncardiac changes in, 409
Abscess, corneal, 1062–1163
Acetaminophen, 797, 936
Acid-fast bacilli keratopathy, 1163
Acromegaly, from therapy with progestagens, 366–367
Acupuncture, description of, 876
for management of pain, 875–884
in refractory epilepsy, 201
incorporation into pain management, 880
physiology of, 877
specific points for, locations of, 881–884
and techniques of, 877–880
traditional Chinese medical basis of, 876–877
Acute bullous keratopathy, 1163
Acyclovir, in viral disorders, 1366
S-Adenosyl-L-methionine, in osteoarthritis, 942
Adequan, in osteoarthritis, 943–944
Agar gel immunodiffusion test, in coccidioidomycosis in dogs, 1082
Aggression, management of, during diagnostic and emergency procedures, 885–887
Airway, upper, disease of, 538–546
initial treatment for, 478
obstruction of, management of, during diagnostic and emergency procedures, 889
Airway sampling, in tracheal collapse, 1260–1261
Allergic disease, in rabbits, 1330
Allergy, drugs for, 1358–1363
Alpha-2 agonists, 896
for preoperative sedation, 514
Aminoglycosides, distribution in respiratory tract, 1350
Amphotericin B, in cryptococcosis in dogs, 1078
in feline cryptococcosis, 1036
in feline systemic fungal infections, 1038
Amphotericin B lipid complex, in blastomycosis in dogs, 1072
Analgesia, and chemical restraint, for diagnostic and emergency procedures, 885–898
Analgesic agents, 721–723, 741–745
for initial management of acute pain, 738
in cancer pain, 962
opioid. See Opioid analgesics.
Analgesic therapy, adjunctive, 805–813
alternative drugs and techniques in, 807–809
nonpharmacologic approaches to, 810–811

1369
Analgesic therapy (Continued)

novel drugs and routes of administration in, 809–810

Anesthesia, epidural. See Epidural analgesia, and anesthesia.

for emergency small animal patient, 509–530

fluid therapy and, 510–511

induction agents for, 514–516

intraoperative monitoring during, 517

maintenance of, 516–517

management of, 511

postoperative analgesia and, 522–524

potential intraoperative problems during, 518–522

preoperative drug selection for, 511–514

preoperative evaluation and management for, 509–510

general, hypostatic congestion of lungs following, 369–370

in cardiovascular instability, 524

in gastric dilatation-volvulus syndrome, 564

in increased intracranial pressure, 527–529

in respiratory disease, 525–527

induction of, drugs for, 920

influencing heart rate, 372–373

local and regional, 839–857

techniques in cats, 851–855

techniques in dogs, 845–850

techniques of, 844–845

maintenance of, analgesic techniques for, 920–922

recovery from, analgesia during, 922–924

first 24 hours following, 924–925

Anesthetics, inhalant, for maintenance of anesthesia, 516–517

injectable, for maintenance of anesthesia, 517

local, absorption and metabolism of, 840–841

adverse effects of, 841–842

clinical pharmacology of, 839–844

epidural and intrathecal opioids with, 767–768

for epidural analgesia and anesthesia, 863–865

in acute pain, 901

mechanism of action of, 840

Anorexia, persistent, barium-impregnated polyethylene spheres for investigation of, 463

Antibacterial agents, ophthalmic, 1158, 1159

Antibiotics, distribution of, to respiratory system, 1346–1351

for respiratory disorders, in dogs and cats, 1337–1355

approach to, 1340–1341

culture and susceptibility in, 1344–1345

limitations of, 1345

regimens for, 1351–1352

selection of, factors influencing, 1346, 1347–1348

targeting of, 1341, 1342

in bacterial endophthalmitis, 1164

in bite wounds, 676–677

in diskospondylitis, 178–179, 180

in feline asthma, 1289–1290

in open fractures, 649–650

in postoperative emergency small animal patient, 693–694

sensitivity to, in hamsters, 1324

topical, solutions of, fortified and non-commercial, 1158, 1160

Anticholinergics, for preoperative sedation, 514

in allergy, 1361

Anticholinesterase drugs, in canine acquired myasthenia gravis, 71

Anticytokines, in allergy, 1361–1362

Antifungal agents, in feline systemic fungal infections, 1038

in ocular histoplasmosis in dogs, 1086

Antihistamines, newer generation, in allergy, 1399

Anti-IgE antibodies, in allergy, 1362

Anti-infective agents, in infectious respiratory diseases, 1364–1366

Anti-inflammatory drugs, nonsteroidal, 783–804

adverse effects of, 818–823

and gastrointestinal ulceration, 354–356

and opioid analgesics, pharmacologic considerations for, 815–837

clinical effectiveness of, 776–777

complications caused by physiologic conditions or disease and, 823–824

contraindications to use of, 788–789

dosing regimen for, 792–793

for perioperative pain, 926

for postoperative analgesia, 523–524

for veterinary patients, 790–796

in acute pain, 901

in allergy, 1361

in cancer pain, 956

in osteoarthritis, 938

in pain management, indications for, 787–788

licensed for veterinary use, 778

mechanism of action of, 773–781, 784, 816

not approved for veterinary use, 796–797

of future, 790
pharmacokinetic characteristics of, 817–818
topically applied, 789–790
Antileukotriene inhibitors, 1291
Antileukotrienes, in allergy, 1359–1361
Antineoplastic agents, causing pulmonary
toxicity, 370
Antiprostaglandins, in allergy, 1361
Antiseizure agents, used in dogs, 191, 195–199
Antiserotonins, in allergy, 1362–1363
Antitussives, in chronic canine bronchitis, 1275
Antiviral medications, in feline
herpesvirus, 1009, 1010
Anxiety, management of, during
diagnostic and emergency procedures, 887–888
Aqueous humor tap, in blastomycosis in
dogs, 1069
Arrhythmias, management of, during
diagnostic and emergency procedures, 893
Arterial blood gas analysis, 1202
Arthropathies, infective, in cats, 299–300
Ascorbate, in osteoarthritis, 942–943
Aspergillosis, disseminated, 341
in dogs, 1086, 1087–1088
in rabbits, 1329
Aspirin, 797, 936
Asthma, bronchoconstriction in, 1182–1183
feline, 1279–1293
classification of, 1283
diagnosis of, 1279–1280
eosinophil–T lymphocyte interactions
in, 1282–1283
pathophysiology of, 1280–1283
recent studies of, 1283
treatment of, 1284–1291
Ataxia, in neurologic dysfunction, 11
in vestibular disease, 233
Atlantoaxial instability, 618–622
Atrial thrombosis, in hamsters, 1324
Atrium, left, enlargement of, in feline
cardiace disease, 416–417
right, enlargement of, in feline cardiac
disease, 419
Atropine, 897
Auscultation, 1193
Azithromycin, in Rocky Mountain spotted
fever, 1147
Bacterial conjunctivitis, 1152–1157
feline, 1156
Bacterial endophthalmitis, 1164
Bacterial flora, natural, 1153–1154, 1155
Bacterial infections, primary ocular, canine
and feline, 1151–1167
systemic, canine, 1103–1117
Bacterial keratitis, 1157–1162
Bacterial osteomyelitis, 320, 325, 336–338
Barbiturates, as induction agents, 515
Barium-impregnated polyethylene spheres,
and other modalities, compared, to
determine gastrointestinal motility, 464
calculation of gastric emptying rate of, 454
calculation of oro­colic transit rate of, 454
capsules containing, 449, 451
dose of, 450
in acute presentations, 460–462
in chronic presentations, 462–464
in gastrointestinal disease, pros and cons
of, 449–465
indications for use of, 460–464
methods of administration of, 451–452
principles of use of, 449–450
radiography of, patterns in, 454–460
restraint for, 453
timing of, 453
views of, 453
radiopaque marker studies of, interpreta­
tion of, 454–460
studies of, on empty stomach, 452
studies with Prescription Diet d/d, 452
studies with Prescription Diet r/d, 452–
453
Behaviors, concerns associated with,
during diagnostic and emergency
procedures, 885–887
in acute pain, 902
of cats and dogs, associated with pain,
732–733, 954
Benzodiazepines, as induction agents,
514–515
for preoperative sedation, 512
in idiopathic epilepsy, 198
Beta-lactams, distribution in respiratory
tract, 1349–1350
Biopsy, abdominal, for diagnostic and
emergency procedures, 895–896
Biopsy samples, histopathologic evaluation
of, in coccidioidomycosis in dogs,
1082
Bite wounds, 548
antibiotics in, 676–677
fracture and body­ wall repair in, 675
in dogs and cats, 669–679
infectious diseases and, 678
initial management in, 671–673
injury assessment in, 673–674
local tissue injury in, 669–670
postoperative management in, 678
systemic effects of, 670–671
wound exploration, debridement, and la­
avage in, 674–675
wound repair in, 675–676
Bladder, pelvic, incontinence in, 435–436
Bladder (Continued)
support of, in acute pain, 907–908
Blastomyces dermatitidis, inhalation by dogs, 1063
Blastomycosis, in cats, clinical signs of, 1043
diagnostics in, 1043–1044
ocular manifestations of, 1043
pathogenesis of, 1042
therapy of, 1044
in dogs, clinical signs of, 1064–1068
diagnostics in, 1068–1072
ocular manifestations of, 1064–1068
therapy of, 1072–1073
transmission of, 1063–1064
Blastomycosis osteomyelitis, 340
Blepharitis, bacterial, 1151–1152
Bloating, chronic or recurrent, barium-impregnated polyethylene spheres for investigation of, 463
Blood gas analysis, arterial, 1202
Bone, benign changes of, 342–345
cortex of, evaluation of, in bone disease, 319–321, 328
infection of. See Osteomyelitis.
lesions of, assessment of rate of change of, in bone disease, 322
evaluation of margins of, in bone disease, 321–322
margination of, in bone disease, 319, 324
medullary cavity of, evaluation of, in bone disease, 319, 321, 328
metastatic neoplasia to, 332–334, 335
new, Codman’s triangle of, 318, 321, 324, 327
periosteal changes in, in bone disease, 317–319, 320, 321, 324, 326, 327
radiography of, and additional assessments, in diagnosis of disease, 315–316
optimization of radiographic quality in, 316–317
remodeling and resorption of, 315
serial radiographic studies of, in bone disease, 324, 328–329
Bone biopsy, in bone disease, 329
Bone cysts, 342–344
Bone disease, assessment of rate of change of lesions in, 322
bone biopsy in, 329
evaluation of bone cortex in, 319–321, 328
evaluation of margins of lesions in, 321–322
radiographic characterization of, 317–322
radiography and additional assessments in diagnosis of, 315–316
Bone infarcts, in bone disease, 322, 327
Bone pain, in cancer, management of, 963
Bordetella bronchiseptica, in guinea pigs, 1319–1320
in rabbits, 1327–1328
in rodents, 1318
Borrelia, 1110–1111
Borreliosis, Lyme. See Lyme borreliosis.
Bowel obstruction, caused by radiolucent body, barium-impregnated polyethylene spheres to rule out, 461
partial, barium-impregnated polyethylene spheres for screening in, 462
Brachycephalic syndrome, 539, 1227
Brain, anatomy of, 304–307
diseases of, 630–638
masses of, 634–636
Brain injury, primary, in head trauma, 208–209
secondarily, in head trauma, 208, 209–210
Brainstem, neurologic dysfunction and, 20
Breath sounds, adventitious, 1181
vesicular, 1178–1181
Bromide, in idiopathic epilepsy, 196–197
Bronchitis, canine chronic, bronchoscopy in, 1272
chest radiography in, 1270
clinical pathology in, 1270
clinical presentation of, 1268–1269
complications of, 1278
culture and cytology in, 1270–1272
diagnosis and treatment of, 1267–1278
diagnostic evaluation of, 1269–1274
differential diagnosis of, 1269
pathophysiology of, 1267–1268
prognosis in, 1278
pulmonary function testing in, 1272–1274
surgery in, 1277
treatment of, 1274–1277
Bronchoalveolar lavage, 1199, 1200
Bronchodilators, in chronic canine bronchitis, 1275–1277
in feline asthma, 1285–1288
Bronchoscopy, in chronic canine bronchitis, 1272
in tracheal collapse, 1260
Brucellosis, canine, clinical signs of, 1108–1109
diagnostics in, 1109–1110
ocular signs of, 1109
pathogenesis of, 1108
public health aspects of, 1110
transmission of, 1107–1108
uveitis in, 1109
Bupivacaine, 843
for postoperative analgesia, 523
Buprenorphine, 762–763
Butorphanol, 761–762, 904–905
Buxco Box, 1203–1204

Cardiomyopathy, 416
Cardiomegaly, 416
Cardiac
Calicivirus, feline, chlamydia and, 1015–1028
clinical signs of, 1024–1025
diagnostics in, 1026
control and prevention of, 1026
ecology and epidemiology of, 1024
ocular manifestations of, 1025
organisms causing, 1023
therapy of, 1025–1026
transmission and pathogenesis of, 1023–1024
in rabbits, 1328

Cancer, pain of, assessment of, 953–954
causes and types of, 952–953
epidural analgesia in, 959
management of, 951–966
alternative therapies in, 963
barriers to, 952
drugs used in, 956–957, 962
reasons for, 951–952
treatment strategies for, 957–959, 960–961
Cardiac disease(s), and lung disease,
differentiation between, 1183–1184
feline, acquired, radiographic findings
in, 421–423
clinical signs of, 395–396
congenital, radiographic findings in,
423–424
left atrial enlargement in, 416–417
of left heart, 416
radiographic patterns of, cardiac
changes in, 411–420
noncardiac changes in, 405–411
radiography of, 395–425
advantages of, 396
indications for, 395–396
risk-benefit assessment of, 396–397
of, 397–399, 400–403
right atrial enlargement in, 419
right ventricular enlargement in, 419, 420
management of, during diagnostic and
emergency procedures, 893
Cardiac rhythm disturbances, during
intraoperative anesthesia, 518
Cardiomegaly, feline, radiography in, 415, 416
hyperthyroid, feline, 421
Cardiomyopathy, dilated, feline, 416, 421
hypertrophic, feline, 412, 414, 416, 421
unclassified (restrictive), feline, 412, 416, 418, 421
Cardiopulmonary system, normal
radiographic, in cats, 399–405
Cardiovascular compromise, in emergency
surgical small animal patient, 682
management of, during diagnostic and
emergency procedures, 891–893
Cardiovascular disease, in rabbits, 1330
Cardiovascular instability, anesthesia in,
524
Cardiovascular system, support of, in
acute pain, 904–905
Carprofen, 793–794, 816, 818, 821, 822–823, 935, 936
Carpus, luxations of, 651
Cartilaginous exostosis, multiple, 342, 343
Cartrofen Vet, in osteoarthritis, 944
Catecholamines, in postoperative
management of emergency small
animal patient, 686
Catheters, for central venous access, 498
placement of, skin desensitization for,
896
Cats, and dogs, bite wounds in, 669–679
hemoperitoneum in, practical
approach to, 657–668
pleural disease of, 1295–1307
primary ocular bacterial infections in,
1151–1167
respiratory disorders in, antibiotic
therapy in, 1337–1355
experimental drug therapy for,
1357–1367
urinary incontinence and abnormal
urination in, diagnosis of, 427–448
asthma in, 1279–1293
calciuvirus in. See Calicivirus, feline.
cardiac disease in. See Cardiac disease(s),
feline.
cardiopulmonary anatomy of, normal ra-
diographic, 399–405
chlamydia in. See Chlamydia, feline.
coccioidiomycosis in. See Coccidioidomy-
cosis, in cats.
cryptococcosis in. See Cryptococcus, in
cats.
herpesvirus in. See Herpesvirus, feline.
histoplasmosis in. See Histoplasmosis, in
cats.
hypokalemia polyomopathy in, 66–67
idiopathic polymyositis in, 64
idiopathic vestibular syndrome in, 238
immunodeficiency virus in. See Feline imm-
unodeficiency virus.
infectious peritonitis in, 242–243. See In-
fected peritonitis, feline.
intervertebral disk disease in, 102
joint diseases in. See Joint diseases, feline.
leukemia virus in. See Feline leukemia vi-
rus.
local and regional anesthesia in, tech-
niques of, 851–855
Cats (Continued)
muscular dystrophy in, 65–66
mycoplasma conjunctivitis in, 1156
systemic fungal infections in, 1029–1050
urinary retention in, causes of, 29–35
Cauda equina, anatomy of, 112
Cauda equina syndrome, 111
Cecal-colic volvulus, 574
Cecal inversion, 574
Cellulitis, canine juvenile, 1152
Central canal, opacification of, 312, 313
Central venous access, 497–502
Cerebellum, neurologic dysfunction and,
20
Cerebrospinal fluid, analysis of, in
intervertebral disk disease, 88
collection of, for diagnostic and emer-
gency procedures, 888
evaluation of, in canine distemper, 1127
Cervical intervertebral disk disease. See
*Intervertebral disk disease, cervical.*
Chemical restraint, and analgesia, for
diagnostic and emergency procedures,
885–898
Chemonucleolysis, in intervertebral disk
disease, 98–99
Chemotherapeutic agents, in allergy, 1361
Chemotherapy, complications of, affecting
urinary tract, 368
Chest trauma, management of, during
diagnostic and emergency procedures,
890–891
Chlamydia, and calcivirus infections,
feline, 1015–1028
Chlamydiosis, feline, clinical signs of,
1017–1019
control and prevention of, 1022–1023
diagnostics in, 1019–1022
ecology and epidemiology of, 1017
ocular manifestations of, 1017–1019
organism causing, 1016–1017
therapy of, 1022
transmission and pathogenesis of,
1016–1017
Chloramphenicol, distribution in
respiratory tract, 1350
in canine rickettsial infections, 1143
in Rocky Mountain spotted fever, 1147
*Chlorella*, 1091
Chondroitin sulfate, in osteoarthritis,
940–942
Chondrosarcoma, 330–331
Chorioretinitis, granulomatous, in
coccidioidomycosis in dogs, 1080, 1081
in canine distemper, 1125–1127
Chorioiditis, in canine rickettsial infections,
treatment of, 1143–1144
Chromodacryorrhea, in rodents, 1318–1319
Chylothorax, 550–551, 1305
Cilia-associated respiratory bacillus, in
rabbits, 1329
in rodents, 1317
Cisapride, and acceleration of gastric
emptying, 356–357
*Coccidioides immitis*, inhalation in dogs,
1078
Coccidioidomycosis, in cats, clinical signs
of, 1045
diagnostics in, 1045–1046
ocular manifestations of, 1045
pathogenesis of, 1044
therapy of, 1046
in dogs, clinical signs of, 1079–1082
diagnostics in, 1082–1083
ocular disease in, 1080–1082
therapy of, 1083–1084
transmission of, 1078–1079
Codman’s triangle of new bone, 318, 321,
324, 327
Collagenase- and protease-associated
ulcers, 1161–1162
Colon, dilatation of, motility in colon and
rectum in, 363
Complement fixation tests, in
coccidioidomycosis in dogs, 1082–1083
Computed tomography, in degenerative
lumbosacral stenosis, 120–121
in diskospondylitis, 174
in intervertebral disk disease, 87–88
in spinal trauma, 140
of lateral epidyndylar osteophytes, in el-
bow dysplasia in dogs, 264
Conjunctival disease, 1152–1157
Conjunctivitis, acute, in canine distemper,
1125
bacterial, 1152–1157
feline, 1156
in calicivirus, 1025
in cats, causes of, 1015
mycoplasma, in cats, 1156
neonatal, 1156–1157
Constipation, chronic, barium-impregnated
polyethylene spheres for investigation
of, 463–464
in cats, management of, restraint for, 895
Cornea, lymphosarcoma of, in feline
leukemia virus, 974, 975
Corneal abscess, 1062–1163
Corneal disease, 1157–1162
Corneal ulcers, bacterial infection of,
1161–1162
melting, 1161–1162
refractory, 1158
Coronavirus, Parker’s rat, 1314–1315
Coronoid process, fragmentation of, in
canine elbow dysplasia, 257–258
radiography in, 257–258
medial, of ulna, 261, 262
Corticosteroids, causing pulmonary
complications, 370–371
in canine acquired myasthenia gravis,
71–72
Decompressive dacryocystitis, 1157

Cyclo-oxygenase, 6-9

Cystitis, 1177

Craniectomy, decompressive, following head trauma, 221

Cryptococcus neoformans, inhalation by dogs, 1073-1074

Cushing’s syndrome, iatrogenic, following corticosteroid therapy, 366

Cyclo-oxygenase, nonsteroidal anti-inflammatory drugs and, 774-780

Cyclo-oxygenase-2 inhibitors, 816-817

Cyclophosphamide, effects of, on urinary tract, 368

Cylopamine, 368

Cyclosporine, in keratoconjunctivitis sicca, 1154-1155

Cyproheptadine, in feline asthma, 1290-1291

Cystitis, following acroelin therapy, 368

Cysts, bone, 342-344

Cytology, for signs of tracheobronchial disease, 1198-1199

in blastomycosis in cats, 1043-1044

in coccidioidomycosis in dogs, 1082

in cryptococcosis in dogs, 1076

in nasal cavity, 1194

routine, in histoplasmosis in dogs, 1085

Cytomegalovirus, in guinea pigs, 1321

in canine idiopathic myositis, 63-64

in canine rickettsial infections, 1143

in chronic canine bronchitis, 1275

in feline asthma, 1284-1285

in mastocitary myositis, 61-62

in osteoarthritis, 938-939

in Rocky Mountain spotted fever, 1147

in spinal trauma, 140-142

Cosequin, 1177

Half-hearted, in

Crackles, 235

Cough, hacking, 1177

Cranial nerve, examination of, in neurologic dysfunction, 6-9

Cranial nerve deficits, in vestibular disease, 235

Craniectomy, decompressive, following head trauma, 221

Cromolyn, in allergy, 1358-1359

Cryptococcosis, in cats, clinical signs of, 1032-1035

diagnostics in, 1035-1036

ocular manifestations of, 1033-1035

pathogenesis of, 1030-1032

therapy in, 1036-1039

in dogs, clinical signs of, 1074-1076

diagnostics in, 1076-1077

ocular abnormalities in, 1074-1076

therapy in, 1077-1078

transmission of, 1073-1074

Cryptococcus neoformans, inhalation by dogs, 1073-1074

Cushing’s syndrome, iatrogenic, following corticosteroid therapy, 366

Cyclo-oxygenase, nonsteroidal anti-inflammatory drugs and, 774-780

Cyclo-oxygenase-2 inhibitors, 816-817

Cyclophosphamide, effects of, on urinary tract, 368

Cylopamine, in keratoconjunctivitis sicca, 1154-1155

Cyproheptadine, in feline asthma, 1290-1291

Cystitis, following acroelin therapy, 368

Cysts, bone, 342-344

Cytology, for signs of tracheobronchial disease, 1198-1199

in blastomycosis in cats, 1043-1044

in coccidioidomycosis in dogs, 1082

in cryptococcosis in dogs, 1076

in nasal cavity, 1194

routine, in histoplasmosis in dogs, 1085

Cytomegalovirus, in guinea pigs, 1321

in canine idiopathic myositis, 63-64

in canine rickettsial infections, 1143

in chronic canine bronchitis, 1275

in feline asthma, 1284-1285

in mastocitary myositis, 61-62

in osteoarthritis, 938-939

in Rocky Mountain spotted fever, 1147

in spinal trauma, 140-142

Cosequin, in osteoarthritis, 940-942

Cough, hacking, 1177

half-hearted, in

Crackles, 235

Cranial nerve, examination of, in neurologic dysfunction, 6-9

Cranial nerve deficits, in vestibular disease, 235

Craniectomy, decompressive, following head trauma, 221

Cromolyn, in allergy, 1358-1359

Cryptococcosis, in cats, clinical signs of, 1032-1035

diagnostics in, 1035-1036

ocular manifestations of, 1033-1035

pathogenesis of, 1030-1032

therapy in, 1036-1039

in dogs, clinical signs of, 1074-1076

diagnostics in, 1076-1077

ocular abnormalities in, 1074-1076

therapy in, 1077-1078

transmission of, 1073-1074

Cryptococcus neoformans, inhalation by dogs, 1073-1074

Cushing’s syndrome, iatrogenic, following corticosteroid therapy, 366

Cyclo-oxygenase, nonsteroidal anti-inflammatory drugs and, 774-780

Cyclo-oxygenase-2 inhibitors, 816-817

Cyclophosphamide, effects of, on urinary tract, 368

Cylopamine, in keratoconjunctivitis sicca, 1154-1155

Cyproheptadine, in feline asthma, 1290-1291

Cystitis, following acroelin therapy, 368

Cysts, bone, 342-344

Cytology, for signs of tracheobronchial disease, 1198-1199

in blastomycosis in cats, 1043-1044

in coccidioidomycosis in dogs, 1082

in cryptococcosis in dogs, 1076

in nasal cavity, 1194

routine, in histoplasmosis in dogs, 1085

Cytomegalovirus, in guinea pigs, 1321

in spinal trauma, 147

Dehydration, management of, during diagnostic and emergency procedures, 892-893

Descemetocoeles, 1159-1161

Detrusor atony, in urinary retention, 46-49

Dexamethasone, and gastrointestinal ulceration, 356

in canine rickettsial infections, 1143

Diagnostic and emergency procedures, chemical restraint and analgesia for, 885-898

Diagnostic test, sensitivity/specificity of, 1188

Diaphragm, rupture of, acute respiratory distress in, 481

Diaphragmatic hernia, 548-549

management of, during diagnostic and emergency procedures, 890

peritoneopericardial, feline, 409, 423

Diarrhea, chronic, barium-impregnated polyethylene spheres for screening in, 462-463

Diet, hypoallergenic, in epilepsy, 202

ketogenic, in epilepsy, 202

Diffuse air space, lung biopsy in, 1215-1216

Dipyrone, 796

Discography, in degenerative lumbosacral stenosis, 119, 120

Diskospondylitis, 627-628

and other vertebral infections, 169-182

clinical features of, 171

computed tomography in, 174
diagnosis of, 171-178
differential diagnosis of, 178

incontinence in, 443, 445

laboratory tests in, 175-176

magnetic resonance imaging in, 175, 176

myelography in, 173

needle aspiration and biopsy in, 176-178

pathophysiology of, 169-171

prognosis in, 181

radiographs in, 172-173, 174

radionuclide bone imaging in, 175, 177

surgery in, 180-181

treatment of, 178-180

Distemper, canine, clinical signs of, 1124-1127

diagnostics in, 1127

ocular manifestations of, 1124-1127

pathogenesis of, 1124

prevention of, 1127-1128

therapy in, 1128

transmission of, 1124

Distemper encephalomyelitis, canine, 241-242

Distraction-fusion, in degenerative lumbosacral stenosis, 126-128

Diuretics, in oliguria, 692-693

Ehrlichia, 1135, 1136 Ehrlichiosis, granulocytic, 1138-1141 clinical signs of, 1140-1141 diagnosis of, 1141 ocular lesions in, 1141 pathogenesis of, 1140 transmission of, 1139-1140 monocytic, and Rocky Mountain spotted fever, clinical signs of, compared, 1138 clinical signs of, 1137-1138 ocular lesions in, 1137-1138 pathogenesis of, 1136-1137 transmission of, 1135-1136 thrombocytic, clinical signs of, 1142 diagnosis of, 1142 ocular manifestations of, 1142 pathogenesis of, 1142 transmission of, 1142 Eicosanoids, 773 synthesis of, 773-774, 775 Elbow, bones of, evaluation of, 258, 259 incongruity and subluxation of, 258-259, 260 luxations of, 651 normal, 259 Elbow dysplasia, canine, 257-266 fragmentation of coronoid process in, 257-258 lateral epicondylar osteophytes in, 262, 263 computed tomography images of, 264 periarticular osteophytes in, 260-261 subtrochlear sclerosis in, 261, 263 Electromyography, in canine acquired myasthenia gravis, 70 in canine idiopathic myositis, 62-64 in degenerative lumbosacral stenosis, 123 in intervertebral disk disease, 88-89 in masticatory myositis, 61 in urinary retention, 43 Embolism, fibrocartilaginous, in dogs. See Fibrocartilaginous embolism. pulmonary, 1306 Emergency(ies), gastrointestinal, 483, 555-579
neurosurgical, 617–644
surgical, of respiratory system, 531–553
of urinary tract, 581–601
urogenital, 484–485
Emergency and diagnostic procedures, chemical restraint and analgesia for, 885–898
Emergency management, of head trauma patient, 207–225
of open fractures and luxations, 645–667
Emergency surgical procedures, 473–698
Emergency surgical small animal patient, anesthesia for, 509–530
gastrointestinal emergencies in, 483
hemoadbomen in, 485–486
in accidental wounds, 486–487
postoperative management of, 681–698
antibiotics in, 693–694
in oliguria, 691–693
management of respiratory insufficiency in, 686–691
monitoring in, 683–685
nutrition in, 694–695
pain management in, 693
pharmacologic interventions in, 686
therapeutic intervention in, 685–686
preoperative evaluation and management of, 473–489
respiratory emergencies in, 477–482
shock in, and fluid resuscitation, 475–477
triage and initial stabilization of, 473–475
urogenital emergencies in, 484–485
Emergency vascular access, 491–507
Empyema, epidural, 628–629
subdural, 636–638
Encephalitis, fungal, 243–244
ricketsial, 243
Encephalomyelitis, distemper, canine, 241–242
Endophthalmitis, bacterial, 1164
in coccidiodomycosis in dogs, 1080
Endoscopy, for diagnostic and emergency procedures, 894–895
Enrofloxacin, in Rocky Mountain spotted fever, 1147
Enucleation, in severe blastomycosis in dogs, 1073
Epicondylar osteophytes, lateral, in elbow dysplasia in dogs, 264
Epidural analgesia, and anesthesia, 859–874
combinations of local anesthetics and opioids for, 870–871
contraindications to, 860
drugs and drug combinations for, 863–865
drugs used for, 871
indications for, 859–860
local anesthetics for, 863–865
opioids for, 865–870
technique of, 860–863
in cancer pain, 959
Epidural space, opacification of, 309–310, 311
Epidurograms, lateral cervicothoracic and thoracolumbar, of dog, 310, 311
Epidurography, in degenerative lumbosacral stenosis, 118–119
in intervertebral disk disease, 86–87
Epilepsy, definition of, 183
idiopathic, alternative therapies in, 200–202
ancillary diagnostic tests in, 190
client education in, 192
diagnosis of, 189–190
diagnostic evaluation in, 188–190
drug therapy in, 190–195
epidemiologic and clinical features of, 187
history taking in, 188
in dogs, 183–206
laboratory tests in, 188–189
physical examination in, 188
refractory, 200
acupuncture in, 201
diet in, 202–203
surgery in, 201
vagus nerve stimulation in, 201
symptomatic, causes of, 189
Erythromycin, gastric emptying and, 357
Esophagus, foreign body in, 555–557
radiographic appearance of, medications and, 364, 365
Etidocaine, 843
Etodolac, 795, 818, 936–937
Etomidate, as induction agent, 516
Exercise, and physical rehabilitation, in osteoarthritis, 944
Extraocular muscle myositis, 62
Eyelid diseases, 1151–1152
Eyes, infectious diseases and, 971–1167
problems of, in blastomycosis in cats, 1043
in blastomycosis in dogs, 1064–1068, 1072–1073
in brucellosis, 1109
in coccidiodomycosis in cats, 1045
in coccidiodomycosis in dogs, 1080–1082
in cryptococcosis in cats, 1033–1035
in cryptococcosis in dogs, 1078
in feline chlamydiosis, 1017–1019
in feline herpesvirus, 1003–11008
in feline immunodeficiency virus, 978–981, 982–983
in feline leukemia virus, 972–977, 982–983
Eyes (Continued)
in histoplasmosis in cats, 1041
in histoplasmosis in dogs, 1084–1085
in leptospirosis, 1104–1107
in Rocky Mountain spotted fever, 1145–1146
in thrombocytic ehrlichiosis, 1142
in toxoplasmosis, 1053–1059

Famotidine, 800
Felbamate, in idiopathic epilepsy, 198–199
Feline immunodeficiency virus, 977
clinical signs of, 978–981
diagnosis of, 981
ocular manifestations of, 978–981
therapy for, 982–983
prevention of infection in, 981
transmission of, 977–978
Feline leukemia virus, and feline immunodeficiency virus, 971–986
clinical signs of, 972–977
diagnosis of, 977
ocular manifestations of, 972–977
therapy for, 982–983
prevention of, 977
transmission of, 972
Fentanyl, 761, 765–766, 958
Fibrocartilaginous embolic myelopathy, 629–630
Fibrocartilaginous embolism, clinical presentation of, 161–163
definitive diagnosis of, 164–165
differential diagnosis of, 163–164
in dogs, 155–167
incidence of, and patient predisposition to, 159–161
pathophysiology hypothesis of, 157–159
prognosis in, 166
treatment of, 165
Fibrosarcoma, 331–332
Fine-needle aspiration, in cryptococcosis in dogs, 1076
Flail chest, 548
Florida keratopathy, 1063
Fluconazole, in blastomycosis in dogs, 1072
in cryptococcosis in dogs, 1077
in feline cryptococcosis, 1037
Flucytosine, in feline cryptococcosis, 1036–1037
in feline systemic fungal infections, 1038
Fluid therapy, in anesthesia for emergency small animal patient, 510–511
in head trauma, 212–213
in postoperative management of emergency small animal patient, 685–686
Flunixin meglumine, 795
Fluoroquinolones, distribution in respiratory tract, 1350–1351
Forebrain, evaluation of, in neurologic dysfunction, 19–20
Foreign bodies, in esophagus, 555–557
management of, during diagnostic and emergency procedures, 894
in small intestine, 569–571
in stomach, 557
in trachea, 544–545
linear, barium-impregnated polyethylene spheres to rule out, 462
Forelimb, right, anatomy of veins of, 494
Fracture(s), of spine, 623–624, 625
open, and luxations, emergency management of, 645–667
antibiotics in, 649–650
evaluation and treatment of soft tissues surrounding, 646–648
evaluation of, 646
initial stabilization of, 645–646
pain management in, 650
wound covering and support bandage in, 648–649
rib, 548
spinal, or luxation, 133–153
Fungal encephalitis, 243–244
Fungal infections, nasal, surgical treatment of, 1233–1234
systemic, canine, 1063–1090
with ocular involvement, 1063
feline, 1029–1050
Fungal osteomyelitis, 325, 339–342
Gabapentin, in idiopathic epilepsy, 199
Gait, assessment of, in neurologic dysfunction, 11–12
Gait disturbance, in vestibular disease, 233
Gastric bleeding, 557–558
Gastric dilatation-volvulus syndrome, anesthesia in, 564
initial treatment and stabilization in, 563, 564
pathophysiology of, 562–563
postoperative complications in, 568–569
postoperative management in, 568
radiography in, 564
risk factors for, 558–561
surgical techniques in, 564–567
Gastric-dilation volvulus, management of, during diagnostic and emergency procedures, 894
Gastric emptying, pharmaceuticals delaying, 352
Gastric transit, pharmaceuticals accelerating, radiography and, 356–358
Gastric ulcers, pharmaceuticals inducing, radiography and, 354–356
Gastroesophageal intussusception, 558
Gastrointestinal compromise, management of, during diagnostic and emergency procedures, 894–895
Gastrointestinal disease, barium-impregnated polyethylene spheres in, pros and cons of, 449–465
Gastrointestinal emergencies, 483, 555–579
Gastrointestinal motility, determination of, barium-impregnated polyethylene spheres and other modalities in, compared, 464
Gastrointestinal system, radiographic appearance of, medications and, 350–354, 364
radiopacity of, oral pharmaceuticals increasing, 358–363
Gastropexy, in gastric dilatation-volvulus syndrome, 566, 567
Gene therapy, for respiratory disorders, 1363
Gerbils, respiratory pathogens in, 1324–1325
sore nose in, 1325
Glaucoma, in feline immunodeficiency virus, 983
Glucosamine, in osteoarthritis, 940, 941
Glutathione, in viral disorders, 1366
Granulomatous meningoencephalomyelitis, 244
Guinea pigs, respiratory pathogens in, 1319–1322
Gunshot wounds, 548
emergency management of, 486–487
Gut, support of, in acute pain, 907–908

Head trauma patient, emergency management of, 207–225
specific medical therapy for, 216–219
surgical intervention for, 219–221
Heart, chemotherapeutic agents adversely affecting, 373
dimensions and function of, anesthesia influencing, 372
malposition of, causes of, 372
size of, in lateral radiographs, results of study of, 384–386
in radiographs, case material to study, 380
vertebral scale system to measure, 379–393
discussion of, 388–392
in ventrodorsal and dorsoventral radiographs, study of, 386–387
measurement of, methods of, 380–384
vertebral heart size measurement method in, 380, 381
radiographic assessment of, in feline heart disease, 415
Heart disease. See Cardiac disease(s).
Heart rate, anesthesia influencing, 372–373
Heartworm disease, feline, 422
Heat stress, in rabbits, 1330
Hemangiosarcoma, 331–332, 333
Hematoma, renal, 582–583
Hemoabdomen, 485–486
Hemoperitoneum, causes of, 658
diagnosis of, 659–661
in dog and cat, practical approach to, 657–668
initial evaluation and stabilization in, 659
neoplastic, clinical pathology of, 662
diagnostic imaging in, 662–663
outcome and prognosis in, 664–665
surgery in, 663–664
nonneoplastic nontraumatic, 665
nonsurgical (coagulopathic), 665
nontraumatic, 661
traumatic, causes of, 665
outcome and prognosis in, 666–667
patient stabilization and evaluation in, 666
surgery in, 666
Hemorrhage, control of, in hemoabdomen, 486
gastric, 557–558
intracranial, in head trauma, 219, 220
Hemothorax, 549–550, 1305–1306
Hepatitis, infectious, canine, clinical signs of, 1120
diagnostics in, 1123
ocular manifestations of, 1120–1123
pathogenesis of, 1119
prevention of, 1123
therapy in, 1123
Hepatitis (Continued)
 transmission of, 1119
 Hepatomegaly, causes of, 366
 radiographic characterization of, 366
 Hepatozoonosis, sporotrix, 318, 342
 Herpesvirus, canine, clinical signs of, 1128–1129
diagnostics in, 1129
ocular anomalies in, 1129
therapy in, 1129
transmission of, 1128
feline, 1001–1014
clinical signs of, 1003–1008
diagnosis of, 1008–1009
ocular manifeststations of, 1003–1008
pathogenesis of, 1001–1003
transmission of, 1001, 1002
treatment of, 1009–1012
Hind limb, right, anatomy of veins of, 495, 496
Hip, joints of, in cats, 282, 284
Hip dysplasia, in cats, 282–285, 286
in young dog, assessment of, distraction index of, PennHip method of, 268, 272
future strategies and, 278–279
incidence of, progress in reducing, 274–279
radiographic diagnosis of, 267–280
screening for, methods acceptable for, 273
screening methods for, at different ages, 273
standard extended hip radiographic view of, 269–271
subjective radiographic assessment for, 270, 271
registry reporting, 270, 272
Histoplasmosis, in cats, clinical signs of, 1040–1041
diagnostics in, 1041
ocular manifestations of, 1041
pathogenesis of, 1040
therapy of, 1041–1042
in dogs, clinical signs of, 1084–1085
diagnostics in, 1085–1086
ocular signs of, 1084–1085
therapy of, 1086
transmission of, 1084
Horner’s syndrome, in vestibular disease, 235
Hyaluronic acid, in osteoarthritis, 944
Hydromorphine, 761
Hypernea, tachypnea versus, 1177–1178
Hyperostosis, 344–345
Hyperoxgenation, in head trauma, 213–215
Hypertension, feline, 422
Hyperventilation, in head trauma, 213–215
Hypervitaminosis A, in cats, 293–296
Hypokalemic polymyopathy, feline, 66–67
Hypotension, during intraoperative anesthesia, 518–519
Hypothyroidism, 239
as cause of vestibular dysfunction, 239
Hypoventilation, during intraoperative anesthesia, 519–521
in postoperative emergency small animal patient, 688
Hypoxemia, during intraoperative anesthesia, 521–522
Ibuprofen, 937
Illness, levels of pain associated with, 735–736
Imidazole, in aspergillus in dogs, 1086
Imidocarb, in canine rickettsial infections, 1143
Immunodeficiency virus, feline. See Feline immunodeficiency virus.
Inappropriate outlet resistance, urinary retention in, 33–35
Incontinence, urinary. See Urinary incontinence.
Induction agents, in anesthesia for emergency small animal patient, 514–516
Infections, fungal. See Fungal infections.
respiratory, pathophysiology of, 1339–1340
vestibular, diskospondylitis and, 169–182
viral, canine, 1119–1113
Infectious diseases, and eye, 971–1167
bite wounds and, 678
Infectious peritonitis, feline, 242–243, 987–1000
diagnostics in, 994–996
ocular manifestations of, 990–994
pathogenesis of, 988–989
prevention of, 998
systemic signs of, 989–990
therapy for, 996–998
transmission of, 987–988
Inhaler, metered dose, with spacer device, 1285–1288
Injuries, and pain, systemic responses to, 719–720
levels of pain associated with, 735–736
Inspiratory and expiratory disorders, 1191
Interstitial lung disease, lung biopsy in, 1215–1218
Intervertebral disk, biochemical matrix of, 79–80
degeneration of, 80
functional anatomy of, 77–78
intraosseous extrusion of, 101
nutrition of, 78–79
Intervertebral disk disease, 625–627
canine, epidemiology of, 82
cerebrospinal fluid analysis in, 88
cervical, clinical presentation of, 89–90
diagnostic evaluation of, 90, 91
nonsurgical treatment of, 90–91
surgical treatment of, 91–93
computed tomography and magnetic resonance imaging in, 87–88
degeneration of, 77–110
diagnostic techniques in, 82–89
electrodiagnostic testing in, 88–89
epidurography in, 86–87
in cat, 102
myelography in, 83–86
pathophysiology of, 77–82
secondary pathologic changes in spinal cord in, 81–82
survey radiography in, 82–83
thoracolumbar, chemonucleolysis and laser disk ablation in, 98–99
clinical presentation of, 93–94
diagnostic evaluation of, 94–95
nonsurgical treatment of, 95–96
recurrence of, 99–100
surgical treatment of, 96–101
prognosis for, 100–101
thoracolumbar fenestration in, 97–98
types of, 80–81
Intestine(s), large, emergencies involving, 574–575
radiography of, pharmaceuticals influencing, 363–364
small, emergencies involving, 569–574
foreign body obstruction in, 569–570
intussusception of, 571–572, 573
linear foreign bodies in, 570–571
radiography of, pharmaceuticals influencing, 363
Intra-articular analgesia, 850
Intracranial compliance, 211
Intracranial hemorrhage, in head trauma, 219, 220
Intracranial pressure, increased, anesthesia in, 527–529
monitoring of, following head trauma, 221–222
Intracranial pressure dynamics, 210–211
Intraocular disease, 1164
Ipratropium, in allergy, 1361
Itraconazole, in blastomycosis in dogs, 1072
in cryptococcosis in dogs, 1077–1078
in feline cryptococcosis, 1037
in ocular histoplasmosis in dogs, 1086

Joints, diseases of, in cats, radiographic features of, 281–302
hip, in cats, 282, 284

Jugular venous access, 501–502

Keratitis, bacterial, 1157–1162
ulcerative, 1158–1162
Keratoconjunctivitis sicca, 1154–1156
Keratopathy, acid-fast bacilli, 1163
acute bullous, 1163
Florida, 1063
Ketamine, 806–807
as induction agent, 515
for preoperative sedation, 513
Ketoconazole, in coccidioidomycosis in dogs, 1083–1084
in feline cryptococcosis, 1037
Ketoprofen, 794–795, 937
Ketorolac, 796–797
Kidneys, disorders of, induced by drug therapy, 368
trauma to. See Renal trauma.
Klebsiella pneumoniae, in guinea pigs, 1321
in rodents, 1317–1318

Lameness, in neurologic dysfunction, 12
Large intestine, radiography of, pharmaceuticals influencing, 363–364
Laryngeal sacculles, 1230–1231
Laryngoscopy, 1195
Larynx, collapse of, 543, 1241–1242,
1246–1249
disease of, 541–543
evaluation of, 1193–1195
masses of, 541
paralysis of, 541–542, 1236–1241
diagnosis of, 1238
in cats, surgery in, 1239–1241
in dogs, surgery in, 1238–1239
trauma to, 541
Laser disk ablation, in intervertebral disk disease, 98–99
Leptospirosis, in dogs, clinical signs of, 1104–1107
diagnoses in, 1107
ocular signs of, 1104–1107
pathogenesis of, 1104
public health aspects of, 1107
therapy in, 1107
transmission of, 1103–1104
uveitis in, 1105–1106
Leukemia virus, cavian, 1321
feline. See Feline leukemia virus.
Lidocaine, 842
for postoperative analgesia, 523
Limbs, palpation of, in neurologic dysfunction, 10
Linear tomography, in degenerative lumbosacral stenosis, 120
Liver, blood supply to, 365
drugs influencing, 365–366
Lumbosacral stenosis, degenerative, 111–132
clinical signs of, 114–115
computed tomography in, 120–121
diagnostic aids in, 116
differential diagnosis of, 115–116
discography in, 119, 120
electrodiagnostic studies in, 123
epidurography in, 118–119
history taking in, 113
linear tomography in, 120
magnetic resonance imaging in, 121–123
myelography in, 117–118
pathophysiology of, 112–113
postoperative care in, 128
survey radiography in, 116–117
treatment of, conservative, 123–124
surgical, 124–128
vertebral sinus venography in, 120
Lung(s), antineoplastic agents causing toxicity of, 370
contusions of, 547
corticosteroid therapy causing complications in, 370–371
disease of, and heart disease, differentiation between, 1183–1184
disorders of, diagnostic techniques in, 1208–1209
function of, spirometric tests of, 1203–1204
hypostatic congestion of, following general anesthesia, 369–370
interstitial disease of, lung biopsy in, 1215–1218
physical examination of, 1175–1185
Lung biopsy, 1207–1225
contraindications to, 1207, 1208
in pulmonary nodules, 1213, 1214, 1215
in single pulmonary mass, 1210–1213
indications for, based on radiographic findings, 1210–1218
open, 1224
patient selection for, 1207
practical and philosophic considerations for, 1209–1210, 1211
techniques and procedures for, 1218–1224
Lung lobe torsions, 481
Luxation(s), and open fractures, emergency management of, 645–667
emergency management of, 650–654
of carpus, 651
of coxofemoral joint, 652–653
of elbow, 651
of hock, 654
of shoulder, 652
of spine, 623–624, 625
of stifte, 654
Lyme borreliosis, clinical signs of, 1111–1112
diagnostics in, 1113
ocular disease in, 1112
public health aspects of, 1114
therapy in, 1113–1114
transmission of, 1111
Lyme disease. See Lyme borreliosis.
L-lysine, in viral disorders, 1366
Macrolides, distribution in respiratory tract, 1350
Magnetic resonance imaging, in degenerative lumbosacral stenosis, 121–123
in diskospondylitis, 175, 176
in intervertebral disk disease, 87–88
in spinal trauma, 140, 141
Malocclusion, in rodents, 1319
Manganese, in osteoarthritis, 942–943
Marinol, in head trauma, 216–218
Masticatory muscle myositis, 59–62
Meclofenamic acid, 937
Medetomidine, 806
Medications. See Drug(s), Pharmaceuticals.
Meloxicam, 792–793, 818, 935, 937
Meninges, 304
Meningoencephalomyelitis, granulomatous, 244
Meperidine, 760, 904
Mepivacaine, 843
Mesenteric volvulus, 572–574
Methadone, 761
Methohexital, 896
Metoclopramide, actions of, 357
Metronidazole, distribution in respiratory tract, 1351
Metronidazole toxicity, neurologic dysfunction in, 246
Micturition, neurophysiology of, 26–29
Minocycline, in canine rickettsial infections, 1143
Misoprostol, 798
Mitral insufficiency, feline, 422
Modulatory pathways, descending, 710–711
Morphine, 759–760
Motility disorders, barium-impregnated polyethylene spheres for screening in, 462–463
Motor function, support of, in acute pain, 906–907
Mucocele, 539–540
Mucopolysaccharidosis, in cats, 291–292, 293, 294
Multistotic primary neoplasia, 334–335, 336
Muscle(s), and neuromuscular junction, selected disorders of, 59–75
disorders of, neurologic dysfunction in, 22–23
Muscle failure, respiratory, management of, during diagnostic and emergency procedures, 889–890
Muscle tone, evaluation of, in neurologic dysfunction, 14
Muscular dystrophy, canine, 64–65
feline, 65–66
Musculoskeletal system, feline, in cardiac disease, noncardiac changes in, 405
Myasthenia gravis, canine acquired, 67–72
acute fulminating, 69
clinical presentation of, 68
diagnosis of, 69–71
electromyography in, 70
focal form of, 68–69
prognosis in, 72
Tensilon test in, 71
thymic abnormalities in, 69
treatment of, 71–72
Mycoplasma conjunctivitis, in cats, 1156
Mycoplasma infections, in hamsters, 1323
Mycoplasmosis, murine respiratory, 1313–1314
Myelograms, cervical, lateral and ventrodorsal, of dog, 310
lumbar, lateral and ventrodorsal, of cat, 308, 309
Myelographic artifacts, 303–314
Myelography, 303
column of contrast matter in, 307–308
in degenerative lumbosacral stenosis, 117–118
in diskospondylitis, 173
in intervertebral disk disease, 83–86
Myelopathy, fibrocartilaginous embolic, 629–630
Myoclonus, in neurologic dysfunction, 12
Myositis, extraocular muscle, 62
masticatory muscle, 59–62
Neck, and head, bite wounds of, 673
Nedocromil, in allergy, 1358–1359
Needle aspiration biopsy, transbronchial, 1218–1220
transthoracic, 1220–1223
Neonatal conjunctivitis, 1156–1157
Neoplasia, as cause of vestibular dysfunction, 239–240, 245–246
metastatic, to bone, 332–334, 335
multiostotic primary, 334–335, 336
respiratory, in guinea pigs, 1322
in hamsters, 1323–1324
in rabbits, 1330
in rodents, 1318
Neosporosis, 244–245
Nerve(s), peripheral, disease of, 638–640
lesions of, neurologic dysfunction in, 21
Nerve fibers, afferent, 707
Nervous system, central, sensitization of, 715–717
peripheral, sensitization of, 714–715
plasticity of, 714–717
Neural blockade, peripheral, in cats, 851–855
in dogs, 845–850
Neuroanatomic diagnosis, in neurologic dysfunction, 19–21
Neurologic compromise, management of, during diagnostic and emergency procedures, 888
Neurologic dysfunction, chief complaint in, 2–3
cranial nerve examination in, 6–9
environment, diet and family history in, assessment of, 3
etiologic diagnosis of, 22–23
evaluation of motor function in, 10–14
history taking in, 2–3
initial assessment of patients with, 1–24
levels of consciousness in, 5
mental status and behavior in, assessment of, 5
neurologic examination in, 4–5
palpation in, 9–10
past medical history in, 3
physical examination in, 4
posture in, assessment of, 5–6
signalment in, assessment of, 2
Neurologic problems, common, 1–249
Neuromuscular junction, muscles and, selected disorders of, 59–75
Neurons, dorsal horn, 707–708
Neurosurgery, 959
Neurosurgeons, 959
Neurosurgical emergencies, 617–644
Nizatidine, and acceleration of gastric emptying, 358
Noceceptors, peripheral, 705–706
Nonepileptic paroxysmal disorders, 185
Nose, fungal infections of, surgical treatment of, 1233–1234
Nose (Continued)
nephalgia of, surgical treatment of, 1233
sore in gerbils, 1325
surgical approach to, 1234–1236
NSAIDs. See Anti-inflammatory drugs, nonsteroidal.
Nutrition, following emergency surgery, 694–695
in osteoarthritis, 945
Nystagmus, in vestibular disease, 233–235
pathologic, 234–235
physiologic, 233–234

Obstipation, management of, restraint for, 895
Oliguria, postoperative, diuretics in, 692–693
monitoring in, 691–692
pathophysiology of, 691
therapeutic intervention in, 692
Omeprazole, 800
Opiate receptors, 757
Opioid agonists, kappa, 761–763
mu, 759–761
Opioid analgesics, 757–772
advantages of, 824–825
adverse effects of, 827–830
as induction agents, 514
discovery of, 865
drug interactions with, 830–831
epidural and intrathecal, with local anesthetics, 768–769
epidural or intrathecal administration of, 767–768
for cancer pain, 956–957, 958
for epidural analgesia and anesthesia, 865–870
for maintenance of anesthesia, 921–922
for perioperative pain, 926
doses of, 758
for postoperative analgesia, 522–523
for preoperative sedation, 512
in acute pain, 901
local administration of, 766–767
oral administration of, 764
pharmacokinetics of, 826–827
pharmacologic effects of, 825–826
rectal administration of, 764–765
systemic injection of, 758–764
transdermal administration of, 765–766
Opioid antagonists, mu, 761–763
Optic neuritis, in canine distemper, 1127
Orthopedic Foundation for Animals, 267, 268, 271
subjective scoring scheme of, 272, 273
Osteoarthritis, anti-inflammatory and analgesic medications in, 935–939
chronic pain of, management of, 933–949
clinical characteristics of, 933–934
diagnosis of, 934
disease-modifying agents in, injectable, 943
oral, 939–943
exercise and physical rehabilitation in, 944
in cats, 281–282, 283
nutrition in, 945
treatment of, 934–935
Osteoarthropathy, pulmonary hypertrophic, 344–345
Osteochondrodysplasia, Scottish fold, 288–291
Osteochondromatosis, synovial, in cats, 285–288
Osteochondrosarcoma, multilobular, 331
Osteomyelitis, bacterial, 320, 325, 336–338
blastomycosis, 340
causes of, 320, 335–336, 337
fungi, 325, 339–342
hematogenous, 338–339
intradiskal. See Diskospondylitis.
protozoal, 342
vertebral, 628
radiographs in, 172–173
Osteopathy, hypertrophic, 344–345
Osteophytes, epicondylar, lateral, in elbow dysplasia, 264
periarticular, in elbow dysplasia in dogs, 260–261
Osteosarcoma, parosteal, 330
radiographic features of, 327–330
signs and symptoms of, 322–327
sites of, 319, 321, 322–327
Otitis media-interna, 236–237
Ototoxicity, vestibular and, 240–241
Oxygen, administration of, in head trauma, 214
Oxygen supplementation, 538, 539
Oxymorphone, 760

Pain, acute, common causes of, treatment of, 908–914
in cats and dogs, analgesics for initial management of, 738
management of, 745–748, 899–916
pharmacologic treatment of, 900–902
surgical, treatment of, 909–910, 911–912
traumatic, treatment of, 908–911
and injury, systemic responses to, 719–720
assessment of, 732–741
and general approach to management of, 729–755
general considerations in, 734–738
in animals, key points in, 734
in neurologic dysfunction, 18–19
methods of, clinical use of, 740
chronic, management of, 748, 749
in cats and dogs, behaviors associated with, 732–733, 954
levels of, associated with surgical procedures, illness, or injuries, 735–736
management of, 703–966
general approach to, 741–749
implications for, 720–723
importance of, 875–876
in open fractures, 650
in postoperative emergency small animal patient, 693
in veterinary medicine, current status of, 730–732
recommendations for improving, 748
neuromatrix theory of, 718–719
neuropathic, 718
nociceptive processing of, 704–711
ongoing, analgesics for various levels of, 744–745
pathologic, 711–713
acute, 712–713
chronic, 713
perioperative, management of, 917–932
in geriatric patients, 927–928
in pediatric patients, 925–927
in pregnant and lactating patients, 928–929
premedication to provide analgesia for, 919–920
physiologic, 704
physiology of, 703–728
visceral, 717–718
Pain evaluation scale(s), 955
descriptive, 733–755
Pain scoring systems, 739–741
Pancreatitis, abdominal radiographic changes in, 368
associated with drug administration, 367–368
pain of, management of, 912–914
Pantoprazole, 800
Papillomatosis, canine viral, 1130
Parenchyma, pulmonary, diseases of, 479
Parker’s rat coronavirus, 1314–1315
Paroxysmal disorders, nonepileptic, 185
Pasteurella multocida, in rabbits, 1326–1327
Pasteurella pneumotropica, in rodents, 1318
Patent ductus arteriosus, feline, 423
Pelvic bladder, incontinence in, 435–436
Pelvic masses, incontinence in, 439–442
Pentazocine, 762
Pericardial disease, feline, 422–423
Peritoneal cavity, anatomy and physiology of, 603
Peritoneopericardial diaphragmatic hernia, feline, 409, 423
Peritoneum, bite wounds of, 674
Peritonitis, diagnosis and management of, 603–615
diagnostic tests in, 607–609
etiology of, 604–605
history, clinical signs, and physical examination findings in, 606–607
pain of, management of, 912–914
pathophysiology of, 605–606
postoperative care in, 611
prognosis in, 612
stabilization and treatment in, 609–610
Pharmaceuticals, delaying gastric emptying, 352
effect of, on radiographic appearance of abdomen and thorax, 349–377
Pharynx, defect of, 1228–1230
disease of, 538–541
Phenobarbital, in idiopathic epilepsy, 195–196
Phenothiazines, for preoperative sedation, 513
Phenylbutazone, 938
Physical rehabilitation, exercise and, in osteoarthritis, 944
Physitis, 628
vertebral, radiographs in, 173
Piroxicam, 797, 938
Fleural disease, canine and feline, 1295–1307
specific, 1296–1306
Fleural effusion(s), 549–551
clinical signs of, 1300
diagnosis of, 1300–1301, 1302
in cats, classification of, 1301–1303
physicochemical characteristics of, 1304
sanguineous, 480–481
treatment of, 1303
vesicular breath sounds in, 1179–1180
Fleural space, canine and feline, anatomy and physiology of, 1295–1296
disease of, 479, 546–552
feline, in cardiac disease, noncardiac changes in, 409–410
soft tissue mass in, 1298–1299
diagnosis of, 1299–1300
treatment of, 1300
Pneumonia, vesicular breath sounds in, 1180–1181
Pneumonitis, treatment of, 1364
Pneumothorax, 480, 551–552, 1296–1297
diagnosis of, 1297
treatment of, 1297–1298, 1299
vesicular breath sounds in, 1179–1180
Polyarthropathy(ies), immune-mediated, feline, 297, 298
noninfectious, in cats, 296–299
Polyethylene spheres, barium-impregnated. See Barium-impregnated polyethylene spheres.

Polymerase chain reaction testing, in calicivirus, 1025
in Lyme borreliosis, 1113
in toxoplasmosis, 1057

Polymyopathy, hypokalemic, feline, 66–67
Polymyositis, canine idiopathic, 62–64
feline idiopathic, 64

Postural reactions, in neurologic dysfunction, 12–14
Prednisolone, in canine rickettsial infections, 1143
Prednisone, and gastrointestinal ulceration, 356

Premedication, for analgesia for perioperative pain, 919–920

Procaine, 842
Progestagens, acromegaly from therapy with, 366–367

Prokinetic drug therapy, gastric emptying and, 356–358
Propofol, as induction agent, 515–516
Prostatic disease, incontinence in, 442–443
Prototheca, 1091–1092

Protothecosis, canine, 1091–1101
clinical signs of, 1092–1094
diagnostic considerations in, 1094–1096
incidence of, 1098
pathology of, gross, 1097
ocular, 1097–1098
treatment options and results in, 1096–1097

comparative aspects of, 1092
Protozoal osteomyelitis, 342
Pseudorabies, 1130–1131
Pulmonary diagnostics, 1187–1206
history taking in, 1189–1190
physical examination in, 1191–1201

Pulmonary edema, vesicular breath sounds in, 1180–1181
Pulmonary embolism, 1306
Pulmonary exudate, vesicular breath sounds in, 1180–1181

Pulmonary function tests, 1201–1204
in chronic canine bronchitis, 1272–1274

Pulmonary system, physical examination of, 1175–1185

“Puppy strangles,” 1152
Pyoderma, juvenile, 1152
Pyothorax, 480, 551, 1303–1305

Radiographs, of abdomen and thorax,
appearance of, effect of pharmaceuticals on, 349–377

Radiography, chest, in chronic canine bronchitis, 1270
in blastomycosis in dogs, 1069–1071
in coccidioidomycosis in dogs, 1082
in diskospondylitis, 172–173, 174
in urinary retention, 39–40

survey, in degenerative lumbosacral stenosis, 116–117
in intervertebral disk disease, 82–83

Radiology, clinical, 257–465

Radionuclide bone imaging, in diskospondylitis, 175, 177
Rales, 1181
Ranitidine, in inhibition of gastric acid secretion, 357–358
Ranitidine hydrogen chloride, 798–800
Rectal prolapse, 574–575

Reflexes, spinal, evaluation of, in neurologic dysfunction, 14–18
Renal trauma, classification of, 582–583
diagnosis of, 583–584
surgery in, 584–585, 586

Respiratory bacillus, cilia-associated, in rabbits, 1329
in rodents, 1317

Respiratory compromise, management of, during diagnostic and emergency procedures, 889–891
Respiratory disease(s), anesthesia in, 525–527
feline, treatment of, 1365
infectious, experimental drug therapy for, 1364–1366
lower, management of, during diagnostic and emergency procedures, 890
of rodents, and of rabbits, 1309–1335
management of, 1311
effect on humans, 1310–1311
management of, 1311
symptoms of, 1310

Respiratory disorders, in dogs and cats, antibiotic therapy in, 1337–1355
culture and susceptibility in, 1344–1345
experimental drug therapy for, 1357–1367
implications for therapy of, 1340
physical examination for, 1176
upper, surgically treatable, 1223–1251

Respiratory distress, drugs used in, 540
stabilization of, 479

Respiratory infections, pathophysiology of, 1339–1340
Respiratory insufficiency, in emergency surgical small animal patient, arterial-alveolar oxygen gradient and, 688–689
assessment of oxygenation status in, 688

Rabbits, and rodents, respiratory disease of, 1309–1335
respiratory pathogens in, 1325–1330
Radiation, palliative, 959–963
bradycephalic breeds and, 690–691 
hypoventilation and, 688 
hypoxia in, 689 
monitoring in, 687–688 
pathophysiology of, 686–687 
therapeutic intervention in, 689, 690 
ventilator support in, 690 
Respiratory medicine, 1175–1187 
Respiratory pathogens, in gerbils, 1324–1325 
in guinea pigs, 1319–1322 
in hamsters, 1322–1324 
in rabbits, 1325–1330 
of rodents, 1311–1318 
zoonotic potential of, 1310–1311 
Respiratory system, cytology of, in respiratory disorders, 1341–1344 
defenses of, 1337–1339 
drug distribution to, 1346–1351 
feline, in cardiac disease, noncardiac changes in, 410–414 
support of, in acute pain, 905–906 
surgical emergencies of, 531–553 
emergency procedures in, 533 
initial approach in, 531–533 
Restraint, chemical, and analgesia, for diagnostic and emergency procedures, 885–898 
Retinal disease, in feline leukemia virus, 976 
Retropharyngeal abscessation, 541 
Rib fractures, 548 
Rickettsial encephalitis, 243 
Rickettsial infections, canine, 1135–1149 
treatment of, 1143–1144 
Right ventricular dysplasia, feline, 422 
Rocky Mountain spotted fever, and monocytic ehrlichiosis, clinical signs of, compared, 1138 
clinical signs of, 1145–1146 
diagnosis of, 1146–1147 
ocular lesions in, 1145–1146 
pathogenesis of, 1144 
transmission of, 1144 
treatment of, 1147 
Rodents, and rabbits, respiratory disease of, 1309–1335 
respiratory pathogens of, 1311–1318 
zoonotic potential of, 1310–1311 
Ropivacaine, 843–844 
in acute pain, 901–902 
Seizures, epileptic, 185–187 
cluster, status epilepticus and, home treatment of, 199–200 
focal, 186–187 
generalized, 186 
types of, 185–187 
Seldinger technique, for placement of central venous catheters, 499–501 
Sendai virus, in hamsters, 1323 
rodents and, 1311–1313 
Sensory evaluation, in neurologic dysfunction, 18–19 
Sepsis, in emergency surgical small animal patient, 681–682 
Serology, in blastomycosis in dogs, 1071–1072 
in coccidioidomycosis in dogs, 1082 
in cryptococcosis in dogs, 1077 
in toxoplasmosis, 1056–1057 
Serum fluorescent antibody test, in granulocytic ehrlichiosis, 1141 
Shock, in emergency surgical small animal patient, 475–477, 681–682 
management of, during diagnostic and emergency procedures, 892 
three categories of, 475 
Shoulder, luxations of, 652 
Sialodacryoadenitis virus, 1314–1315 
Small intestine. See Intestines(s), small. 
bacterial overgrowth in, barium-impregnated polyethylene spheres for investigation of, 463 
radiography of, pharmaceuticals influencing, 363 
Soft palate, defect of, 1228–1230 
Soft tissue calcification, in guinea pigs, 1322 
Spinal cord, anatomy of, 304–307 
cranial aspect of, 306 
diseases of, 617–630 
lesions of, neurologic dysfunction in, 20–21 
vascular anatomy of, 155–157 
Spinal cord parenchyma, opacification of, 312–314 
Spinal epidural empyema, 628–629 
Spinal fracture or luxation, 133–153 
Spinal injury, assessment of degree of, grading scale for, 136–137 
Spinal luxation, or fracture, 133–153 
Spinal reflexes, evaluation of, in neurologic dysfunction, 14–18 
Spinal tracts, ascending, 708–709 
Spinal trauma, 133 
computed tomography in, 140 
corticosteroid tomography in, 140–142 
deep pain and, 137 
follow-up management in, 149–150 
magnetic resonance imaging in, 140, 141
Spinal trauma (Continued)
nonsurgical treatment of, 142–143
postoperative management in, 148–149
radiography in, 137–140
surgical treatment of, 144–148
suspected, clinical assessment in, 134–
140
Spine, fractures and luxations of, 623–624,
625
palpation of, in neurologic dysfunction, 9–10
Spirometric tests of pulmonary function,
1203–1204
Spleen, masses of, pharmaceuticals and,
364
Splenomegaly, congestive, 364–365
diffuse, pharmaceuticals and, 364
Spondylitis, reactive, 333–335
Spondylolysis, 111
Spondylomyelopathy, caudal cervical, 623
Sporothrix, 318, 342
Staphylococcus infections, in rabbits, 1329
Status epilepticus, 184
and cluster seizures, home treatment of,
199–200
Stifle, luxations of, 654
Stomach, emergencies associated with,
557–569
foreign body in, 557
radiographic appearance of, in use of
sedatives for chemical restraint,
350–352
Strabimus, in vestibular disease, 235
Streptococcus pneumoniae, in guinea pigs,
1320–1321
rodents and, 1316
Streptococcus zooepidemicus, in guinea pigs,
1321–1322
Stress, pain-induced, markers of, 720
Stress response, to acute injury or illness,
902–904
Stromal ulcers, 1158–1159
Subarachnoid space, opacification of, 308
Subdural empyema, 636–638
Subdural space, opacification of, 311–312
Subtroclear sclerosis, in elbow dysplasia
in dogs, 261, 263
Sucralfate, 798
Sulfonamides, distribution in respiratory
tract, 1351
Supraspinal centers, 709–710
Surgery, levels of pain associated with,
735–736
Surgical emergencies. See Emergency
surgical small animal patient;
Emergency(ies), surgical.
Surgical procedures, emergency, 473–698
Synovial osteochondromatosis, in cats,
285–288
Systemic inflammatory response
syndrome, 605
clinical recognition of, 682–683
in emergency surgical small animal pa-
tient, 681–682
Tachycardia, differential diagnosis of, 475
Tachypnea, versus hyperpnea, 1177–1178
Tensilon test, in canine acquired
myasthenia gravis, 71
Tetracycline, distribution in respiratory
tract, 1350
in canine rickettsial infections, 1143
in Rocky Mountain spotted fever, 1147
Thalamocortical neurochemistry, 710
Thoracic cavity, bite wounds of, 673
Thoracic percussion, 1192
Thoracic wall, trauma to, 546–552
Thoracic wall/cavity, wounds of, 481–482
Thoracocentesis, 479–480, 535–536
Thoracolumbar intervertebral disk disease.
See Intervertebral disk disease,
thoracolumbar.
Thoracoscopy, 1223–1224
Thoracostomy tubes, management of, 538
placement of, preparation for, 536
technique for, 536–538
Thorax, abdomen and, radiographic
appearance of, effect of
pharmaceuticals on, 349–377
depth:width ratios of, assessment of, 384
palpation of, 1192
Thromboembolism, arterial, 630
Thrombosis, atrial, in hamsters, 1324
Tidal breathing flow volume loops, 1203
T-lymphocyte modulators, in allergy, 1363
Tofenamic acid, 795–796
Toxoplasma gondii, life cycle of, 1051–1052
Toxoplasmosis, 244–245, 1051–1062
client counseling in, 1059
clinical findings in, 1053–1055
ocular, diagnosis of, 1056–1057
pathogenesis of, 1055–1056
treatment of, 1057–1059
ocular manifestations of, 1053–1055
pathogenesis of, 1052–1053
Trachea, collapse of, 545–546, 1253–1266
airway sampling in, 1260–1261
bronchoscopy in, 1260
clinical pathology in, 1257–1258
diagnosis of, 1257
grades of, 1255
history in, and clinical signs of, 1256
imaging in, 1258, 1259
medical therapy in, chronic, 1262–1264
emergency, 1261–1262
pathophysiology of, 1253–1256
physical examination in, 1256–1257
surgical management of, 1246–1249,
1264–1265

Tidal breathing flow volume loops, 1203
T-lymphocyte modulators, in allergy, 1363
Tofenamic acid, 795–796
Toxoplasma gondii, life cycle of, 1051–1052
Toxoplasmosis, 244–245, 1051–1062
client counseling in, 1059
clinical findings in, 1053–1055
ocular, diagnosis of, 1056–1057
pathogenesis of, 1055–1056
treatment of, 1057–1059
ocular manifestations of, 1053–1055
pathogenesis of, 1052–1053
Trachea, collapse of, 545–546, 1253–1266
airway sampling in, 1260–1261
bronchoscopy in, 1260
clinical pathology in, 1257–1258
diagnosis of, 1257
grades of, 1255
history in, and clinical signs of, 1256
imaging in, 1258, 1259
medical therapy in, chronic, 1262–1264
emergency, 1261–1262
pathophysiology of, 1253–1256
physical examination in, 1256–1257
surgical management of, 1246–1249,
1264–1265
INDEX 2000

Diseases of, 543–546
Foreign bodies in, 544–545
Surgical removal of, 1246
Hypoplasia of, 544, 1231
Resection and anastomosis of, 1245–1246
Rupture of, 546
Stenosis of, 545
Surgery of, 1242–1249
Tracheobronchial tree, evaluation of, 1195
Tracheobronchitis, infectious, treatment of, 1364
Tracheobronchoscopy, 1200–1201
Tracheostomy, permanent, 1243–1245
Technique of, 533–534
Temporary, 1242–1243, 1244
Tracheostomy tube care in, 534–535
Transbronchial needle aspiration biopsy, 1218–1220
Transbronchoscopic biopsy, 1220–1223
Tremor, in neurologic dysfunction, 12
Tropicamide, in Rocky Mountain spotted fever, 1147
Trovafloxacin, in Rocky Mountain spotted fever, 1147
Ulcer(s), collagenase- and protease-associated, 1161–1162
Corneal, bacterial infection of, 1161–1162
Melting, 1161–1162
Refractory, 1158
Prophylaxis and treatment of, 798–800
Stromal, 1158–1159
Ulceration, gastric, pharmaceuticals inducing, radiography and, 354–356
Ulcerative keratitis, 1158–1162
Ulna, medial coronoid process of, 261, 262
Ultrasound, abdominal, for diagnostic and emergency procedures, 895–896
Ocular, in blastomycosis in dogs, 1069
Upper respiratory disorders, surgically treatable, 1223–1251
Ureteral insertion ectopia, diagnostic evaluation in, 428–434
Urethral obstruction, functional, in urinary retention, 49–52
Urethral pressure profile in urinary retention, 42, 43
Urethrotomy, in obstruction of urine outflow, 599–600
Urinary bladder, failure of contraction of, 29–33
Neuroanatomy of, 26–29
Urinary incontinence, and abnormal urination, in dogs and cats, diagnosis of, 427–440
Causes of, 427
In pelvic bladder, 435–436
Neurogenic, 443–447
Non-neurogenic, 434–443
Urinary retention, causes of, in dogs and cats, 29–35
Clinicopathologic evaluation in, 39
diagnosis and management of, 25–57
diagnostic approach to, 35–45
electromyography in, 43
evaluation of signalment and history in, 37
Imaging in, 39–40
In inappropriate outlet resistance, 33–35
Management of, 45–52
detrusor atony in, 46–49
Functional urethral obstruction in, 49–52
Patient monitoring and prognosis in, 52
Physical examination and observation in, 37–39
Presenting complaints in, 35–37
Problem-specific database for, 36
Urethral pressure profile in, 42, 43
Urodynamic assessment in, 40–45
Urinary tract, complications of chemotherapy affecting, 368
Surgical emergencies of, 581–601
Urination, abnormal, and urinary incontinence, in dogs and cats, diagnosis of, 427–448
diagnostic evaluation in, 427–428
Urine outflow, obstruction of, causes of, 593–595
diagnosis of, 595–596
Percutaneous pubic cystostomy catheter placement in, 596–597, 598
Surgical placement of pubic cystostomy catheter in, 597–598, 599
Urethrotomy in, 599–600
Uroabdomen, causes of, 585–587
diagnosis of, 587–589
treatment of, 589–593
Urodynamic studies, in urinary retention, 44
Urogenital emergencies, 484–485
Urogenital system, drugs adversely influencing, 368
Uveitis, in brucellosis, 1109
In canine distemper, 1125
In canine rickettsial infections, treatment of, 1143–1144
In feline immunodeficiency virus, 978–979
In feline leukemia virus, 973
In leptospirosis, 1105–1106
Vacuum phenomenon, 102
Vagus nerve stimulation, in refractory epilepsy, 201
Valley fever. See Coccioidiomycosis.
Vascular access, arterial access in, 503-506
central venous access in, 497-502
emergency, 491-507
establishment and maintenance of, 491-492
intraosseous access in, 502-503
patient preparation and catheter maintenance for, 492-493
peripheral venous access in, 493-497
Veins, central, emergency access to, 497-502
of right forelimb, anatomy of, 494
of right hind limb, anatomy of, 495, 496
peripheral, emergency access to, 493-497
Venography, vertebral sinus, in degenerative lumbosacral stenosis, 120
Venous access, central, 497-502
jugular, 501-502
Ventricle, left, enlargement of, in feline cardiac disease, 417-419
right, enlargement of, in feline cardiac disease, 419, 420
Ventricular dysplasia, right, feline, 422
Ventricular septal defect, feline, 423
Vertebral infections, diskospondylitis and, 169-182
Vertebral sinus venography, in degenerative lumbosacral stenosis, 120
Vesicular breath sounds, 1178-1181
Vestibular disease(s), central, 241-245
peripheral, 236-246
signs of, 232-235
Vestibular dysfunction, 227-249
compensatory mechanisms in, 231
diagnostic assessment of, 235-236
pharmacologic therapy in, 231-232
Vestibular syndrome, canine idiopathic, 237-238
feline idiopathic, 238
Vestibular system, central component of, 228
clinical anatomy and physiology of, 227-231
in coordination of eye movements, 230
peripheral component of, 227-228
semicircular canals of, function of, 229-230
utricle and saccule of, function of, 228-229
Viral infections, canine, 1119-1133
Vitamin C deficiency, in guinea pigs, 1322
Voiding disorders, pharmacologic agents used in, 46-47
Vomiting, acute, in stable patient, barium-impregnated polyethylene spheres in, 461
chronic, barium-impregnated polyethylene spheres for screening in, 462-463
Wheezes, 1181
Wounds, accidental, emergency management of, 486-487
bite, 548
gunshot, 548

Changing Your Address?

Make sure your subscription changes too! When you notify us of your new address, you can help make our job easier by including an exact copy of your Clinics label number with your old address (see illustration below.) This number identifies you to our computer system and will speed the processing of your address change. Please be sure this label number accompanies your old address and your corrected address—you can send an old Clinics label with your number on it or just copy it exactly and send it to the address listed below.

We appreciate your help in our attempt to give you continuous coverage. Thank you.

Your Clinics Label Number
Copy it exactly or send your label along with your address to:
W.B. Saunders Company, Customer Service
Orlando, FL 32887-4800
Call Toll Free 1-800-654-2452

Please allow four to six weeks for delivery of new subscriptions and for processing address changes.
7 Ways To Expand Your Practice

Step 1: Return this card.

W.B. SAUNDERS COMPANY Clinics and Journals offer you that rare combination of up-to-date scholarly data, step-by-step techniques and authoritative insights...information you can easily apply to the situations you encounter in daily practice. You'll be better able to diagnose and treat a wider range of veterinary problems and broaden your client base.

Just indicate your choice(s) on the card below, fill out the rest of the card and drop it in the mail.

Your satisfaction is guaranteed. If you do not find that the periodical meets your expectations, write cancel on the invoice and return it within 30 days. You are under no further obligation.

SUBSCRIBE TODAY!
DETACH AND MAIL THIS NO-RISK CARD TODAY!

YES! Please start my subscription to the periodicals checked below with the ☐ first issue of the calendar year or ☐ current issue. If not completely satisfied with my first issue, I may write cancel on the invoice and return it within 30 days at no further obligation.
