INDEX

Note: Page numbers of article titles are in boldface type.

Abdomen, trauma to, laparoscopy for examination of, 724-725
Airway, normal cytology of, 702
Anesthesia, for bronchoscopy, 694-695
for laryngoscopy, 684
for pharyngoscopy, 681
for rhinoscopy, 673-674
for video-assisted thoracoscopy, 740-742
Arthroscopy, 764-765
Arthroscopic surgery, 762
basic technique of, 768-772
in dogs, instrumentation for, 763-768
Arthroscopy, 761-787
canine, history of, 762-763
complications of, 772-773
equipment for, 763-768
future directions in, 785-786
in joint disorders, 761, 766, 773-785

Balloon catheter dilation, 617-618
Biopsy forceps, alligator, 665
Bladder, laparoscopy for examination of, 723
Bougienage, 617
Bronchoalveolar cell counts, 701
Bronchoscopy, anesthesia for, 694-695
complications of, 703-704
equipment for, 692-694
history of, 691
intravenous drugs for use with, 695, 696
procedure for, 695-701
sample analysis in, 701-703
in eosinophilic inflammation, 702-703
in hemorrhagic inflammation, 703
in neoplastic inflammation, 703
in pyogranulomatous inflammation, 703
in suppurative inflammation, 702
small animal, 691-705

Cardial incompetence, clinical signs of, 619
diagnosis of, 620
Carpus, arthroscopic approaches to, 781
Cats. See Dogs, and cats.
Colonic mucosa, normal appearance of, 666-667
pathologic appearance of, 667
tissue samples of, biopsy interpretation of, 668
cytologic examination of, 668
handling of, 667-668
Colonoscopy, equipment for, 660-661
flexible, biopsy forceps for, 664-665
technique for, 663-664
indications for, 658
interventional, 668-669
preparation for, 658-659
proctoscopy, and ileoscopy, 657-669
rigid, technique for, 662-663
Cystoscopy, of dogs, 789
prepubic percutaneous, 786-797
equipment for, 797
patient preparation for, 797
patient selection for, 796-797
technique of, 797

Diverticula, causes of, 610-611
clinical signs of, 611
diagnosis of, 611
Dogs, and cats, gastroduodenoscopy in, 631-656
laparoscopy in, 707-727
arthroscopic surgery in, instrumentation for, 763-768
arthroscopy in, history of, 762-763
cystoscopy of, 789
ear of, anatomy of, 809-811, 812
Drugs, intravenous, for use with bronchoscopy, 695, 696
Duodenoscopy, 642-643
Duodenum, biopsy, cytologic evaluation, and aspiration of, techniques for, 643-644

ENDOSCOOPY

829
Duodenum (Continued)
   endoscopy of, 642–643
   landmarks of, 643
   lesions of, illustrations of, 650–654

Ear, canine, anatomy of, 809–811, 812
   diseases of, 809
   pathogenesis of, 811–813
Ear canal, external, examination of, video­
   otoscopy for, 817–819
Elbow, arthroscopic approaches to, 777–781
Electrocautery, endoscopic, 618
Endoscope(s), accessory equipment for,
   596–597
   anatomy of, 589–591
   care and cleaning of, 589–603
   characteristics of, 693
   cleaning, disinfecting, and sterilizing of,
   599–603
   equipment needs for use of, 594–595
   flexible, 589, 590
   and rigid, compared, 591–593
   cleaning of, 600–601
   handling of, 597–599
   imaging systems for, 595–596
   purchasing of, 593–594
   rigid, 589–591
   and flexible, compared, 591–593
   cleaning of, 601–602
   storage of, 603
Endoscopy, 589–828
   esophageal. See Esophagoscopy.
Esophageal fistula, 626
Esophageal neoplasia, 627–628, 629
Esophageal prosthesis, 618
Esophageal sphincter, lower, normal
   anatomy of, 635
Esophageal strictures. See Strictures,
   esophageal.
Esophagitis, causes of, 611–612
   clinical signs of, 612
   diagnosis of, 612–613
Esophagoscopy, 605–630
   indications for, 605–606
   instrumentation for, 606
   patient preparation for, 607
   procedure for, and normal finding on,
   607–609
Esophagus, foreign bodies in, clinical signs
   of, 623
   diagnosis of, 623–624
   treatment of, 624–625
   perforation of, 625
   ulcers in, 626–627
Fiberoptic scope, 595

Fistula, esophageal, 626

Gastroduodenoscopy, complications of, 634
   future of, 650
   in dog and cat, 631–656
   indications for, 632
   instrumentation for, 634
   patient preparation for, 633–634
   procedure for, 634–635
   restraint for, 633
Gastroesophageal intussusception, 622, 623
Gastrointestinal tract, laparoscopy for
   examination of, and biopsy of, 724
Gastroscope, anatomy of, 592
Genitourinary tract, laparoscopy for
   examination of, 721–723

Hiatal disease, 619
Hiatal hernia, clinical signs of, 620–621
   diagnosis of, 621, 622
Hip, arthroscopy of, 782
Hook, arthroscopic exploration and
   treatment of, 784–785

Ileoscopy, indications for, 658

Joint(s), disorders of, arthroscopy in, 761,
   766
   specific, arthroscopy in, 773–785

Kidneys, laparoscopy for examination of,
   technique for, 721–723

Laparoscopes, 708, 709
Laparoscopy, complications of, 725–726
   equipment for, 707–708
   for biopsy of liver and pancreas, 717–
   721
   for examination of bladder, 723
   for examination of gastrointestinal tract,
   724
   for examination of genitourinary tract,
   721–723
   for examination of kidneys, 721–723
   for examination of liver and pancreas,
   713–721
   indications for, 713–715
   patient preparation for, 715–716
INDEX

technique for, 716–717
for examination of reproductive tract, 723
general technique of, 711–713
in dogs and cats, 707–727
laparoscope (telescope) for, 708
and instruments for, 709–711
light source for, 707
video, 708
Laryngoscopy, ancillary tests for, 683–684
anesthesia for, 684
equipment for, 683
indications for, 683
technique of, 684–688
Limen pharyngoesophageum, 608, 609
Liver, and pancreas, biopsy of, laparoscopy for, 717–721
examination of, laparoscopy for, 713–721
Lungs, video-assisted thoracoscopy for, 753–755
Megaesophagus, causes of, 609
clinical signs of, 609–610
diagnosis of, 609
Neoplasia, esophageal, 627–628, 629
Osteochondritis dissecans, arthroscopy in, 773, 775, 776, 778
Otitis externa, video-otoscopy in, 809, 826–827
Otitis media, video-otoscopy in, 809, 822, 823, 826–827
Pancreas, and liver, biopsy of, laparoscopy for, 717–721
examination of, laparoscopy for, 713–721
Pericardecotmy, video-assisted thoracoscopv for, 752–753, 754, 755
Pharyngoscopy, 679–683
ancillary testing for, 680–681
anesthesia for, 681
equipment available for, 680
indications for, 680
technique of, 681–683
Pleurodesis, video-assisted thoracoscopy for, 755, 756
Proctoscopes, 660
Proctoscopy, endoscopic techniques for, 661–662
equipment for, 660
indications for, 657–658
Pyloric canal, 639–642
Reproductive tract, laparoscopy for examination of, 723
Rhinoscopy, and ancillary diagnostic tests, 673
anesthesia for, 673–674
equipment for, 672–673
indications for, 671–672
pharyngoscopy, and laryngoscopy, 671–689
technique of, 674–679
Shoulder, arthrosocopic approaches to, 773–777
Stifle, arthroscopic assessment of, 782–784
Stomach, anatomy of, and landmarks in, 636–639
antrum of, 639–642
biopsy, cytologic evaluation, and aspiration of, techniques for, 643–644
lesions of, illustrations of, 650–654
Strictures, esophageal, causes of, 614–615
clinical signs of, 615
complications of, 618
diagnosis of, 615–616
postoperative management of, 618
treatment of, 617–618
Thoracoscopy, history of, 729
indications for, 730
video-assisted, 729–759
approaches to thoracic cavity for, 742–750
biopsy, cytologic, and culture procedures obtained with, 750–751
complications of, 756–757
contraindications to, 740
instrumentation for, 730–740
light source for, 733–734
patient preparation and anesthesia for, 740–742
postoperative care following, 756
surgery via, 751–755
technique of, 740–755
telescopes for, 731
trocar-cannula unit for, 734–737
video system for, 731–733
Tympanic cavity, evaluation of, video-otoscopy for, 823–824
irrigation of, video-otoscopy for, 825–826
Tympanic membrane, examination of, video-otoscopy for, 819–822, 823
Tympanic membrane (Continued)
re-evaluation of, video-otoscopy for, 826

Ulcers, in esophagus, 626–627
Urinary tract, disorders of, diagnosis of, 789
Uroendoscopy, 789–807
acquired abnormalities in, 801–805
advanced diagnostic and interventional procedures in, 805–806
congenital abnormalities in, 799–801
equipment, patient selection, and technique for, 790
flexible transurethral, equipment for, 794–795
patient preparation for, 796
patient selection for, 794
technique of, 796
indications for, 789–790
normal anatomy of structures visualized by, in female patients, 797–799
in male patients, 799
pathologic findings on, 799–805
rigid transurethral, 790–793
equipment for, 791–792
patient preparation for, 792–793
patient selection for, 791
technique of, 793

Video-otoscopy, equipment for, 814–816
for evaluation of tympanic cavity, 823–824
for examination of external ear canal, 817–819
for examination of tympanic membrane, 819–822, 823
for irrigation of tympanic cavity, 825–826
for re-evaluation of tympanic membrane, 826
indications for, 813–814
procedures utilizing, 816–826
uses and indications for, in small animal practice, 809–828
Videoscope, 595–596
