Index

Note: Page numbers of article titles are in boldface type.

A
Airway, upper, obstruction of, medical management of, 1076–1077
Allergic airway disease, medical management of, 1084–1086
Alveolar-arterial oxygen gradient, 1052
Analgesia, in critical care, 1129–1146
monitoring of, 1143–1144
local, in pain, 1139–1143
Analgesic agents, in pain, 1133–1137
Anesthesia, topical, in pain, 1140
Anesthetic/analgesic agents, in pain, 1137–1139
Anesthetic cream, local, eutectic mixture of, 1140–1141
Antibiotics, for nosocomial infections, 1118, 1119
resistance to, nosocomial infections and, 1105–1106
Anticoagulant therapies, in acute lung injury, 1080
Anti-inflammatory drugs, nonsteroidal, in pain, 1138
Anxiolytics, in pain, 1139

B
Bacterial translocation, 1167–1180
clinical implications of, 1172–1173
definition of, 1167
gastrointestinal mucosal barrier and, 1170–1171, 1175
nutrition and, 1171–1172
pathogenesis of, 1168–1169
prevention of, 1173–1176
studies of, 1167
treatment of, 1173–1176
Barotrauma, as sequelae of mechanical ventilation, 1100
Benzodiazepines, in pain, 1139
Blood gas analysis, 1033–1050
arterial, 1037–1046, 1052
acid-base status and, 1040–1041
Blood gas (continued)

- additive effect on pH and, 1046
- metabolic acidosis and, 1041–1042
- metabolic alkalosis and, 1043
- mixed acid-base disturbances and, 1044–1045
- neutralizing effect on pH and, 1045
- respiratory acidosis and, 1042
- respiratory alkalosis and, 1043–1044
- to determine oxygenation, 1038–1040
- triple disorders and, 1046
- ventilation and, 1037–1038
  - capnometry for, 1035–1036
  - co-oximeters for, 1035
  - equipment for, 1034
  - goal of information from, 1036–1037
  - pulse oximetry for, 1035
  - sample collection for, 1033–1034
  - venous, 1046–1049
  - acid-base status and, 1047–1048
  - cerebral oxygenation and, 1048
  - tissue perfusion and, 1047

Bloodstream, nosocomial infections of, 1106–1109

Breathing, work of (WOB), estimation of, in mechanical ventilation, 1070

Bupivacaine, interpleural, in pain, 1141–1142

Buprenex, in pain, 1136–1137

Buprenorphine, in pain, 1136–1137

Butorphanol, in pain, 1137

C

Capnography, 1026
  - clinical applications of, 1029–1030
  - definition of, 1023

Capnometry, for blood gas analysis, 1035–1036

Carbon dioxide monitoring, end-tidal, 1053–1054
  - pulse oximetry and, 1023–1031

Carbon monoxide poisoning, 1013

Catheter, intratracheal, for oxygen delivery, 1016
  - nasal, for oxygen delivery, 1014–1015
  - urinary tract nosocomial infections associated with, 1113–1116

Critical care, analgesia in, 1129–1146
  - monitoring of, 1143–1144

Critical care medicine, respiratory pharmacotherapy in, 1075–1088

Critical care patients, nutritional support in, 1147–1166
D
Denitrogenation (absorption) atelectasis, 1018
Diarrhea, nosocomial, 1118–1121
Diffusion, impairment of, 1058
Dilaudid, in pain, 1136
Drugs, additions of, for nutritional support, 1159–1160
Dyshemoglobinemias, anemic hypoxia and, 1012–1013

E
Elizabethan collar canopy, for oxygen delivery, 1016
Emergency care medicine, respiratory pharmacotherapy in, 1075–1088
Energy, demands of, as factor in respiratory muscle fatigue, 1065–1067
minimizing of, to treat respiratory muscle fatigue, 1071
supply of, as factor in respiratory muscle fatigue, 1065
increasing of, to treat respiratory muscle fatigue, 1070
Enteral feeding, and parenteral feeding, for critical care patient, 1162
for critical care patient, 1155, 1157
Enteral nutrition, support of gut with, to prevent bacterial translocation,
1175–1176
Epidural anesthesia, in pain, 1142–1143

F
Face mask, for oxygen delivery, 1014
Fentanyl, in pain, 1135
Fentanyl patch, in pain, 1135–1136
Flow-by oxygen, 1014
Foods, selection of, for nutritional support, 1156–1157
Furosemide, in pulmonary edema, 1082

G
Gas exchange, and oxygen transport, 1051
Gastrointestinal mucosal barrier, bacterial translocation and, 1170–1171, 1175
Gut, oxygenation of, improvement of, in bacterial translocation, 1173–1175
support of, with enteral nutrition, to prevent bacterial translocation, 1175–1176

H
Hemoglobin, and oxyhemoglobin dissociation curve, 1008–1009
Hydromorphone, in pain, 1136
Hypoventilation, 1054–1056
Hypoxemia, causes of, 1054
   consequences of, 1058–1059
Hypoxia, and muscle fatigue, 1061
   anemic, and dyshemoglobinemas, 1012–1013
   anoxic, 1011–1012
   categories of, 1011–1013
   histiocyctic, 1013
   stagnant, 1013

I
Infections, nosocomial, 1103–1128
   antibiotic resistance and, 1105–1106
   catheter-associated urinary tract infections, 1113–1116
   gastrointestinal, 1118–1121
   hospital locations of pathogens and, 1104–1105
   of bloodstream, 1106–1109
   prevention of, 1121–1122
   surgical wound, 1116–1118

Inspiratory pressure/maximum inspiratory pressure, conditions causing increase in, 1063, 1064

Intrapulmonary shunt, 1057

J
Jejunostomy tubes, for nutritional support, 1156

K
Ketamine, in pain, 1137–1138
Ketaset, in pain, 1137–1138

L
Lung, acute injury to, medical management of, 1079

M
Mechanical ventilation, cost of, 1089
   critical care area for, requirements for, 1091–1093
   for oxygen delivery, 1016–1017
   indications for, 1090–1091
   initiation of, 1095
   modes of, 1095–1097
   nursing considerations in, 1097–1099
   positive-pressure, problems associated with, 1099–1100
   principles of, 1089–1102
   ventilator for, 1093–1095
   weaning from, 1100–1101
Methemoglobinemia, 1012
Morphine, in pain, 1134–1135
Muscles, respiratory. See Respiratory muscles.

N
Naloxone, in pain, 1137
Narcan, in pain, 1137
Nasoesophageal tubes, for nutritional support, 1155–1156
Nerve block, intercostal, 1141
Neuromuscular competence, decreased, as factor in respiratory muscle fatigue, 1065
maximizing of, to treat respiratory muscle fatigue, 1071–1072
Nonsteroidal anti-inflammatory drugs, in pain, 1138
Nosocomial infections. See Infections, nosocomial.
Numorphan, in pain, 1136
Nutrition, bacterial translocation and, 1171–1172
enteral, support of gut with, to prevent bacterial translocation, 1175–1176
Nutritional factors, for respiratory patient, 1152–1154
Nutritional support, in critical care patients, 1147–1166
assessment of animal for, 1147–1153
B-complex vitamins in, 1152
clinical importance of, 1147
energy requirements and, 1150–1151
fat-soluble vitamins in, 1152
feeding plan for, 1154–1162
nutritional factors in, 1148, 1149
provision of protein in, 1151–1152
reassessment of animal for, 1163
trace minerals in, 1152

O
Opioids, in pain, 1133–1134, 1135
Oximetry, definition of, 1023
pulse. See Pulse oximetry.
Oxygen, concentrations of, low inspired, 1058
consumption of, 1010
delivery of, 1008
modes and techniques for, 1013–1014
total, 1009–1010
flow-by, 1014
uptake and diffusion of, 1007–1008
Oxygen cage, for oxygen delivery, 1015
Oxygen deprivation, 1010
  clinical signs of, 1010–1011
Oxygen therapy, and oxygen toxicity, 1007–1022
  indications for, 1010–1013
  monitoring of, 1017–1018
Oxygen toxicity, diagnosis of, 1019–1020
  oxygen therapy and, 1007–1022
  pulmonary, pathophysiology of, 1019
  treatment of, 1020
Oxygenation, physiology of, 1007–1010
Oxyhemoglobin saturation curve, 1053, 1054
Oxymorphone, in pain, 1136

P
Pain, analgesic agents in, 1133–1137
  anesthetic/analgesic agents in, 1137–1139
  assessment of, 1133
  local anesthetics in, 1139–1143
  management of, philosophy of, 1132
  mechanisms and pathways of, 1129–1130
  nociception and antinociception, 1130–1131
  physiologic and metabolic responses to, 1131–1132
  stress response to, 1132
Parenteral feeding, and enteral feeding, for critical care patient, 1162
  for critical care patient, 1157–1159, 1160
  complications of, 1161–1162
Pharmacotherapy, respiratory, in emergency and critical care medicine, 1075–1088
Pharyngostomy/esophagostomy/gastrostomy tubes, for nutritional support, 1156
Plethysmography, 1024
Pleural effusion, medical management of, 1083–1084
Pneumonia, as nosocomial infection, 1109–1112
  as sequelae of mechanical ventilation, 1100, 1110, 1111
  medical management of, 1078–1079
Pulmonary edema, definition of, 1082
  medical management of, 1082–1083
Pulse oximetry, 1053
  advantages of, 1025
  and end-tidal carbon dioxide monitoring, 1023–1031
  definition of, 1023
  for blood gas analysis, 1035
Pulse oximetry (continued)
  limitations of, 1026, 1143
  uses of, 1024, 1143

R
Respiratory distress, emergency management of, 1075–1076
Respiratory distress syndrome, medical management of, 1079
Respiratory failure, causes of, 1051–1060
  definition of, 1051
Respiratory muscles, fatigue of, 1058, 1061–1073
  clinical conditions associated with, 1069–1070
  definition of, 1061
  detection of, 1067–1069
  factors predisposing to, 1065
  physiology of, 1062–1065
  treatment of, 1070–1072
Respiratory patient, nutritional factors for, 1152–1154

S
Sedatives, in pain, 1138–1139
Spectrophotometry, definition of, 1023

T
Thromboembolism, pulmonary, medical management of, 1079–1081
  pharmaceutic agents in, 1080–1081
Torbugesic, in pain, 1137
Trauma, thoracic, medical management of, 1077–1078

U
Urinary tract, nosocomial catheter-associated infections of, 1113–1116

V
Ventilation, and oxygenation, assessment of, 1052–1056
  mechanical. See Mechanical ventilation.
Ventilation/perfusion mismatch, 1056–1057
Ventilator, for mechanical ventilation, 1093–1095
Vitamins, in nutritional support for critical care patients, 1152

W
Warfarin, in acute lung injury, 1081
