In the November 2006 issue (volume 36, number 6), on page 1304 of the article “Feline Diabetes Mellitus: Low Carbohydrates Versus High Fiber?” by Claudia A. Kirk, DVM, PhD, there was an error in wording on the second line from the bottom of the page. The full sentence should read, “These are good choices because they are palatable, low in carbohydrates, and fortified with vitamins and minerals that may be beneficial in DM.”
