Erratum

In the article by William M. Adams, DVM, "Radiographic Diagnosis of Hip Dysplasia in the Young Dog," appearing in the March 2000 issue of The Veterinary Clinics of North America: Small Animal Practice, Figure 3 (p. 275) should appear as follows:

![Figure 3](image-url)

**Figure 3.** Close-up of a distracted radiographic view of the same puppy seen in Figure 2. A PennHip distraction device was used. The measured DI reported for these hips was 0.51 bilaterally. At the time of these films, the median DI for this breed in the PennHip registry was 0.39. Hips at minimal risk for developing DJD would have a DI < 0.30.
