Index

Note: Page numbers of article titles are in **boldface** type.

A

Abuse, animal, evaluation of, local veterinary diagnostic laboratory in, 380
ADDL. See Animal Disease Diagnostic Laboratory (ADDL).
American Registry of Professional Animal Scientists, 332
American Society of Veterinarian Behavior, 332
American Veterinarian Society of Animal Behaviorists, 332
Anaplasmosis, 269–270
Animal(s), importation of, health-related issues of, 359–372. See also Importation of animals, health-related issues of.
Animal abuse, evaluation of, local veterinary diagnostic laboratory in, 380
Animal and Plant Health Inspection Services (APHIS), of USDA, 228, 361
Animal and Plant Health Service (APHS), 361
Animal Disease Diagnostic Laboratory (ADDL), of San Diego County, 373–375
Animal hoarding, problems related to, 336–337
Animal Welfare Act, 361
Animal-assisted activities, human benefit from, 307, 314
Animal-assisted therapy, human benefit from, 314
Antimicrobial resistance, **279–292**
  - development of, 279–280
  - prevention of, steps in, 285–288
Antimicrobial-resistant organisms, **279–292**
  - methicillin-resistant *Staphylococcus aureus*, 282–283
  - multidrug-resistant *Salmonella* infections, 281–282
  - nosocomial infections, 283–285
  - types of, 280–285
APHIS. See Animal and Plant Health Inspection Service (APHIS).
APHS. See Animal and Plant Health Service (APHS).
Assistance animals, human benefit from, 314
  - special considerations for care of, 314–315
  - studies of, 316–320
Association of Pet Dog Trainers, 332
Avian disease surveillance, local veterinary diagnostic laboratory in, 376–377
Avian influenza H5N1, highly pathogenic, 254–255

B

Behavior problems, of companion animals, 327–328
Behavioral wellness, concept of, in veterinarian practices, 330–331
Bioterrorism, as companion-animal sentinel setting, 247–248
Bite(s), dog, injuries related to, 337–338
Border puppies, problems related to, 362–365
Borreliosis, Lyme, 267–268
Bureau of Animal Industry, 361
C
Cat(s)
feral and free-roaming, impact on people other than pet owner, 334–335
influenza in, 255–257. See also Influenza.
noise annoyance by, impact on people other than pet owner, 333–334
unwanted, surplus of, impact on people other than pet owner, 335–336
Cat scratch disease, as companion-animal sentinel setting, 244
CBP. See Customs and Border Protection (CBP).
Center for Emerging Issues, 228
Centers for Disease Control and Prevention (CDC), 217, 219, 228, 361
on surveillance, 225–226
Centers for Epidemiology and Animal Health, 228
Certification Council for Pet Dog Trainers, 332
Chemical(s), industrial, as companion-animal sentinel setting, 247
Chemical terrorism, as companion-animal sentinel setting, 247–248
Chlamydophilia psittaci, surveillance for, local veterinary diagnostic laboratory in, 378–379
Companion animal(s)
as sentinels for public health, 241–250
companion-animal sentinel settings, 243–248. See also Companion-animal sentinel settings.
in production settings, 242–243
in wildlife sentinel settings, 243
sentinel-animal surveillance, 241–242
behavioral wellness in, concept of, in veterinarian practices, 330–331
benefits of, 327
impact on owner and family, 328–329
impact on people other than pet owner, 333–336
feral and free-roaming dogs and cats, 334–335
noise annoyance, 333–334
surplus of unwanted dogs and cats, 335–336
waste, 334
problems related to
animal hoarding, 336–337
behavior-related, 327–328
dog bite-related injuries, 337–338
hospital policies, 330
impact on practitioners and staff helping clients, 329–330
impact on society, veterinarians’ role in, 327–345
referral for, 331–333
Companion animal diseases, surveillance and disease reporting related to, 225–240.
See also Surveillance, companion animal diseases and.
Companion-animal sentinel settings, 243–248
bioterrorism, 247–248
cat scratch disease, 244
chemical terrorism, 247–248
environmental contaminants, 246–247
feed contamination, 244
index

industrial chemicals, 247
infectious diseases, 244–246
lead poisoning, 246
leishmaniasis, 245
organochlorines, 246–247
Rocky Mountain spotted fever, 244–245
trypanosomiasis, 245–246
Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES), 360
Council of State and Territorial Epidemiologists, 228
Customs and Border Protection (CBP), 361–362

D

Department of Health and Human Services, 228
National Disaster Medical System of, 355
Department of Homeland Security, FEMA of, 348–349
Department of the Interior, USFWS of, 360
Disaster(s), emergency management during, for small animal practitioners, 347–358
  described, 347
  emergency management cycle, 349–356
  mitigation, 350
  organizational structure, 348–349
    Alaska Native Tribal government, 349
    American Indian government, 349
    federal government, 348–349
    local government, 348
    state government, 348
    volunteer organizations, 349
  preparedness, 350–353
    clinical, 352–353
    federal, 350–351
    pet-owner, 353
    state, 351–352
  recovery, 356
  response, 353–356
  volunteer organizations active in, 355
Disease reporting
  companion-animal diseases and, 225–240
    fragmented landscape of, 230
  in public health, 226
Dog(s)
  bites from, injuries related to, 337–338
  border puppies, problems related to, 362–365
  feral and free-roaming, impact on people other than pet owner, 334–335
  influenza in, 257–262. See also Influenza.
  noise annoyance by, impact on people other than pet owner, 333–334
  unwanted, surplus of, impact on people other than pet owner, 335–336
Index

E
Ehrlichioses, 269–270
Emergency Animal Rescue Services, 355
Emergency management, during disasters, for small animal practitioners, 347–358. See also Disaster(s), emergency management during, for small animal practitioners.
Emergency Operations Centers, 348
Environmental contaminants, as companion-animal sentinel setting, 246–247
Exotic pets, ownership of, in US, 359–360

F
Feed contamination, as companion-animal sentinel setting, 244
FEMA. See Federal Emergency Management Agency (FEMA).
Food and Drug Administration, 349
Food Safety and Inspection Service, 361
Food Safety and Quality Service, 361
Foodborne Diseases Active Surveillance Network, 228

G
Guidelines for Humane Dog Training, 332

H
H3N2, in dogs, 258
H3N8, in dogs, 258–261
  case study, 260–261
  clinical signs of, 258–259
  control of, 259
  described, 258
  diagnosis of, 259
  prevention of, 260
  public health and, 261
  treatment of, 259
Health
  animal importation and, 359–372. See also Importation of animals, health-related issues of.
  effects of animals on, 294–306
Hospital(s), in companion-animal surveillance, 235–236
Hospital groups, in companion-animal surveillance, 235–236
HPAI H5N1, 254–255
  in cats, 255–257
  in dogs, 257–258
Human–companion-animal bond
  human benefit from, 293–326
    client education, 321
    described, 293–294
    social interactions and health, 294–306
therapy animals, 306–315. See also Therapy animals.
zoones, 315–321
zoonotic diseases effects on, 315, 321
Humane Society of United States, National Disaster Animal Response Team of, 355

ICS. See Incident Command System (ICS).

Importation of animals
health-related issues of, 359–372
animal species, potential disease risks associated with, 365–368
border puppies, 362–365
changes in market forces, 359–360
oversight and regulation of, challenges with, 360–362

Incident Command System (ICS), 354

Industrial chemicals, as companion-animal sentinel setting, 247

Infectious diseases, as companion-animal sentinel setting, 244–246

Influenza, 251–264
basics of, 251–252
HPAI H5N1, 254–255
in cats, 255–257
HPAI H5N1, 255–256
calming public fears related to, 256–257
in dogs, 261–262
H3N2, 258
H3N8, 258–261
HPAI H5N1, 257–258
recommendations for, 261–262
mutability of, 252–253
pandemic, 254
types of, 251

Influenza A viruses, ecology of, 253–254

Information systems, in public health, 230–232

Institute of Medicine (IOM), 265

International Association of Canine Professionals, 332

Internet, in companion-animal surveillance, 237

IOM. See Institute of Medicine (IOM).

Laboratory-based surveillance networks, in companion-animal surveillance, 236–237

Lead poisoning, as companion-animal sentinel setting, 246

Leishmaniasis, as companion-animal sentinel setting, 245

Local veterinary diagnostic laboratory
benefits of, 375–376
future directions in, 382
in animal abuse cases, 380
in avian disease surveillance, 376–377
in Chlamydophila psittaci surveillance, 378–379
in MRSA case study, 381
in Q fever case study, 380–381
Local (continued)
in rabies testing, 379
in vector-borne disease surveillance, 377–378
limitations of, 381–382
model for One Health Initiative, 373–384
role of, 373
Lyme borreliosis, 267–268

M
MACS. See Multiagency Coordination System (MACS).
Methicillin-resistant Staphylococcus aureus, 282–283
case study of, local veterinary diagnostic laboratory in, 381
Morbidity and Mortality Weekly Report, 228
Multiagency Coordination System (MACS), 354

N
NAHSS. See National Animal Health Surveillance System (NAHSS).
NARSC. See National Animal Rescue and Sheltering Coalition (NARSC).
National Academy of Sciences, 230
National Animal Health Emergency Response Corps (NAHERC), 355
National Animal Health Monitoring System, 228
National Animal Health Reporting System, of US Department of Agriculture, 217
National Animal Health Surveillance System (NAHSS), 228–229
National Animal Rescue and Sheltering Coalition (NARSC), 349
National Association of Dog Obedience Instructors, 332
National Cancer Institute, 229
National Disaster Animal Response Team, of Humane Society of United States, 355
National Disaster Medical System, of Department of Health and Human Services, 355
National Incident Management System, 354
National Library of Medicine, 231
National Notifiable Diseases Surveillance System (NNDSS), 217, 228
National Preparedness Guidelines, 351
National Surveillance Unit (NSU), 228
National Veterinary Response Team (NVRT), 355
NNDSS. See National Notifiable Diseases Surveillance System (NNDSS).
Noise annoyance, by dogs and cats, impact on people other than pet owner, 333–334
Nosocomial infections, 283–285
NSU. See National Surveillance Unit (NSU).
NVRT. See National Veterinary Response Team (NVRT).

O
OCV. See Office of the County Veterinarian (OCV).
Office International des Epizooties (OIE), 228
Office of Emergency Management, 348
Office of the County Veterinarian (OCV), in San Diego County, 373–375
OIE. See Office International des Epizooties (OIE).
One Health Initiative, 216
local veterinary diagnostic laboratory as model for, 373–384. See also Local veterinary
diagnostic laboratory.
Organochlorine(s), as companion-animal sentinel setting, 246–247

P
PAHO. See Pan American Health Organization (PAHO).
Pan American Health Organization (PAHO), 228
Pandemic influenza, 254
Poisoning(s), lead, as companion-animal sentinel setting, 246
Public health
disease surveillance and reporting in, 226
in twenty-first century, role of veterinarians in clinical practice, 215–224
described, 215–217
in disease detection and reporting, 217
in disease surveillance, 217–219
in education and disease prevention, 220–221
in program evaluation, 221
in research, 221
in response, 219–220
notifiable disease reports in, types of, 230–232
practice of, functions of, 216–217
Puppy(ies), border, problems related to, 362–365

Q
Q fever, case study of, local veterinary diagnostic laboratory in, 380–381

R
Rabies testing, local veterinary diagnostic laboratory in, 379
Red Star Animal Emergency Services, 355
Reporting, in public health, 230–232
Rickettsioses, 268–270
anaplasmosis, 269–270
ehrlichioses, 269–270
Rocky Mountain spotted fever, 268–269
Robert T. Stafford Disaster Relief and Emergency Assistance Act, 349
Rocky Mountain spotted fever, 268–269
as companion-animal sentinel setting, 244–245

S
Salmonella infections, multi-drug resistant, 281–282
San Diego County
ADDL of, 373–375
OCV of, 373–375
Sentinel-animal surveillance, 241–242
Small animal practitioners, emergency management during disasters for, 347–358. See
also Disaster(s), emergency management during, for small animal practitioners.
SNOMED. See Systematized Nomenclature of Medicine (SNOMED).
SNOVET. See Standardized Nomenclature for Veterinary Medicine (SNOVET).
SNVDO. See Standardized Nomenclature for Veterinary Disease and Operations (SNVDO).
Social interactions, effects of animals on, 294–306
Index

studies of, 295–297
Society, companion-animal problems effects on, veterinarians’ role in, 327–345. See also Companion animal(s), problems related to.
Standardized Nomenclature for Veterinary Disease and Operations (SNVDO), 231–232
Standardized Nomenclature for Veterinary Medicine (SNOVET), 231
Staphylococcus aureus, methicillin-resistant, 282–283
case study of, local veterinary diagnostic laboratory in, 381
Stress, companion animals’ effect on, experimental studies of, 300–306
“Super bugs,” 279
Survival
avian disease–related, local veterinary diagnostic laboratory in, 376–377
defined, 217, 219, 225–227
for Chlamyphilia psittaci, local veterinary diagnostic laboratory in, 378–379
in companion-animal diseases, 225–240
data sources in, 227–230
databases, 229–230
global or international, 227–228
hospital(s), 229–230, 235–236
hospital groups, 235–236
