Index

Note: Page numbers of article titles are in boldface type.

A

Abscess(es)
   para-auricular
      in dog and cat ears, 1164–1165
Acquired deafness
   feline, 1182
Adenocarcinoma(s)
   ceruminous gland
      in dog and cat ears, 1173
   sebaceous gland
      in dog and cat ears, 1173
Adenoma(s)
   ceruminous gland
      in dog and cat ears, 1173
   sebaceous gland
      in dog and cat ears, 1173
Adnexal hyperplasia
   in dog and cat ears, 1165
Adnexal neoplasms
   in dog and cat ears, 1173
Air-conducted clicks
   during BAER testing in electrodiagnostic evaluation of auditory function in dogs, 1247
Anesthesia-associated deafness
   canine, 1220
ASSR. See Auditory steady state response (ASSR)
Auditory cortex
   feline deafness effects on, 1197–1198
Auditory function
   in dogs
      electrodiagnostic evaluation of, 1241–1257
      BAER testing in, 1242–1251. See also BAER testing, in electrodiagnostic evaluation of auditory function in dogs
      described, 1241–1242
      OAEs in, 1251–1252
Auditory ossicles
   canine and feline, 1119–1120
Auditory pathway
   trans-synaptic changes in
      feline deafness and, 1191–1198
Auditory steady state response (ASSR)
  overview of, 1253–1255
Auditory system
  feline deafness effects on, 1188–1191
Auditory tube
  canine and feline, 1121
Aural cholesteatoma
  in dog and cat ears, 1166–1167
Aural hematomas, 1168
Aural keratinizing cysts
  in dog and cat ears, 1166–1167
Auricular chondritis and chondrosis, 1168

B
BAER testing
  in electrodiagnostic evaluation of auditory function in dogs, 1242–1251
    equipment for, 1244–1246
    estimation of hearing threshold, 1250
    mechanics of, 1247–1248
    with OAEs, 1253
    patient preparation for, 1246–1247
    recording during, 1247–1248
    screening for inherited and pigment-associated deafness, 1250–1251
    site of lesion diagnostic test, 1249
    standardized protocol for
      need for, 1243
      wave identification and analysis in, 1248–1249
Bilateral deafness
  vs. unilateral deafness
    canine, 1210–1211
Bone-conducted click stimuli
  during BAER testing in electrodiagnostic evaluation of auditory function in dogs, 1248

C
Canine cutaneous histiocytoma, 1169–1170
Canine leproid granuloma, 1164
Canine leprosy, 1164
Cat(s)
  deafness in, 1179–1207. See also Deafness, feline
    ear disease in
      neurological manifestations of, 1143–1160. See also Ear disease(s), in dogs and cats,
      neurological manifestations of
    ear of
      anatomy and physiology of, 1109–1126
      tumors and tumorlike lesions in, 1161–1178. See also Ear(s), canine and feline,
      tumors and tumorlike lesions in
    ototoxicity in, 1259–1271. See also Ototoxicity , in dogs and cats
Cavalier King Charles spaniel (CKCS)
  PSOM in, 1137–1142. See also Primary secretory otitis media (PSOM), in CKCS
Central deafness
  vs. peripheral deafness
canine, 1211
Central hearing loss
canine, 1228
Ceruminous gland adenoma and adenocarcinoma
  tumors and tumorlike lesions in dog and cat ears, 1173
Cholesteatoma
  aural
    in dog and cat ears, 1166–1167
Cholesterol granulomas
  in dog and cat ears, 1167
Chondritis
  auricular, 1168
Chondrosis
  auricular, 1168
Chronic proliferative otitis externa, 1164
Cisplatin
  ototoxicity of
    in dogs and cats, 1263–1265
CKCS. See Cavalier King Charles spaniel (CKCS)
Cochlea
  anatomy and physiology of
    feline, 1184–1188
    canine and feline, 1123
    ear association with, 1148
    properties of, 1186–1187
Cochlear nucleus
  feline deafness effects on, 1191–1194
Colliculus
  inferior
    feline deafness effects on, 1196–1197
Communication
  with hearing-impaired dog, 1232–1234
Conductive deafness
  canine, 1212–1213
Conductive hearing loss
  canine, 1227
  feline, 1180
Congenital deafness
  feline, 1181
Craniomandibular osteopathy, 1169
Cutaneous fibropapilloma
  feline, 1174
Cutaneous granulomatous lesions
  noninfectious
    in dog and cat ears, 1168
Cutaneous histiocytoma
  canine, 1169–1170
Cutaneous lymphoma
  in dog and cat ears, 1174
Cutaneous xanthoma
  in dog and cat ears, 1168
Cyst(s)
  aural keratinizing
    in dogs and cats, 1166–1167
    in dog and cat ears, 1167
Cystomatosis
  feline ceruminous, 1167

D

Deafness. See also Hearing loss
  canine, 1209–1224
    anesthesia-associated deafness, 1220
    conductive, 1212–1213, 1227
    described, 1209–1210
    hyperacusis, 1221
    noise-induced hearing loss, 1219–1220
    OAEs, 1221
    otitis interna–associated deafness, 1220
    ototoxicity of, 1219
    presbycusis, 1218–1219
    tinnitus, 1221
    types of, 1210–1211
  feline, 1179–1207
    auditory system effects of, 1188–1191
    cochlear anatomy and physiology related to, 1184–1188
    genetics of, 1182–1184
    trans-synaptic changes in auditory pathway in
      auditory cortex, 1197–1198
      cochlear nucleus, 1191–1194
      inferior colliculus, 1196–1197
      superior olivary complex, 1194–1196
    types of, 1180–1182
Dermatitis
  eosinophilic
    in dog and cat ears, 1169
Dermatosis
  lichenoid-psoriasiform
    of springer spaniels, 1169
Diuretics
  ototoxicity of
    in dogs and cats, 1265–1266
Doberman pinscher
  deafness in, 1218
Dog(s)
  auditory function in
    electrodiagnostic evaluation of, 1241–1257. See also Auditory function, in dogs, electrodiagnostic evaluation of
    deafness in, 1209–1224. See also Deafness, canine
  ear disease in
neurological manifestations of, 1143–1160. See also Ear disease(s), in dogs and cats, neurological manifestations of ear of
anatomy and physiology of, 1109–1126
tumors and tumorlike lesions in, 1161–1178. See also Ear(s), canine and feline, tumors and tumorlike lesions in hearing loss in, 1225–1239. See also Hearing loss, canine ototoxicity in, 1259–1271. See also Ototoxicity, in dogs and cats

E
Ear(s)
canine and feline
anatomy and physiology of, 1109–1126
auditory ossicles, 1119–1120
auditory tube, 1121
cochlea, 1123
components of, 1109–1110
external ear, 1110–1113
histologic examination of, 1127–1135. See also Histologic examination, of canine and feline ears
internal ear, 1121–1122
middle ear, 1116–1119
tumors and tumorlike lesions in, 1161–1178
benign neoplastic diseases, 1169–1171
described, 1161–1164
malignant neoplastic diseases, 1171–1175
nonneoplastic diseases
infectious and inflammatory, 1164–1165
noninfectious, 1166–1169
tympanic membrane, 1113–1116
vestibular system, 1123–1124
described, 1143
neuroanatomical structures associated with, 1143–1148
cochlea, 1148
facial nerve, 1144–1146
ocular sympathetic tract, 1146–1147
vestibular receptor, 1147–1148
schematic drawing of, 1181
Ear disease(s)
in dogs and cats
neurological manifestations of, 1143–1160
facial nerve paralysis, 1148–1151
HS, 1157–1158
vestibular syndrome, 1151–1156
Eosinophilic dermatitis
in dog and cat ears, 1169
External ear
canine and feline, 1110–1113
F
Facial nerve
 ear association with, 1144–1146

Facial nerve paralysis
 ear disease in dogs and cats and, 1148–1151
  clinical presentation of, 1148–1149
  diagnosis of, 1149–1150
  differential diagnosis of, 1150
  management of, 1150–1151

Feline ceruminous cystomatosis, 1167
Feline cutaneous fibropapilloma, 1174
Feline sarcoids, 1174
Fibropapilloma
  feline cutaneous, 1174
Follicular cysts
  in dog and cat ears, 1167

G
Ganglion(a)
  spiral, 1188

Gentamicin
  ototoxicity of
    in dogs and cats, 1261–1263
      incidence of, 1261–1262
      internal ear pathology, 1262–1263
      molecular mechanisms of, 1263
      prevention of, 1263
Granuloma(s)
  canine leproid, 1164
  cholesterol
    in dog and cat ears, 1167

H
Hair cells
  feline
    anatomy, function, and innervation of, 1187–1188
Hearing
  canine
    normal, 1210
  feline
    described, 1179–1182
    sense of
      vs. sense of smell, 1226
Hearing loss. See also Deafness
  canine
    communication with, 1232–1234
    described, 1228–1229
    management of, 1225–1239
      audiological, 1235–1238
Index

prevention of, 1238
safety related to, 1234–1235
types of, 1227–1228
vs. hearing loss in humans, 1226–1227
warning signs of, 1229–1230
feline
described, 1180–1182
in humans
vs. hearing loss in dogs, 1226–1227
noise-induced
canine, 1219–1220
PSOM and, 1140
Hematoma(s)
aural, 1168
Hereditary deafness
canine, 1214–1218
pigment-associated deafness, 1214–1215
Histiocytoma
cutaneous
canine, 1169–1170
Histologic examination
of canine and feline ears, 1127–1135
described, 1127–1128
ear collection in, 1128–1131
necropsy examination in, 1128–1131
tissue preparation in, 1131–1133
tissue sectioning in
anatomic landmarks for, 1133–1134
Horner syndrome (HS)
ear disease in dogs and cats and, 1157–1158
HS. See Horner syndrome (HS)
Hyperacusis
canine, 1221
Hyperplastic lesions
in dog and cat ears, 1165

I

Idiopathic benign lichenoid keratosis
in dog and cat ears, 1169
Infectious cutaneous granulomatous disease
in dog and cat ears, 1164
Inferior colliculus
feline deafness effects on, 1196–1197
Inflammatory nasopharyngeal polyps
in dog and cat ears, 1165
Inherited deafness
screening for
BAER testing in, 1250–1251
Internal ear
canine and feline, 1121–1122
K
Keratosis
  idiopathic benign lichenoid
    in dog and cat ears, 1169
Kitten(s)
  proliferative and necrotizing otitis externa of, 1166

L
Leprosy
  canine, 1164
Lesion(s). See specific types
Lichenoid-psoriasiform dermatosis of springer spaniels, 1169
Lymphoma(s)
  cutaneous
    in dog and cat ears, 1174

M
Middle ear
  canine and feline, 1116–1119
Mixed hearing loss
  canine, 1228

N
Nasopharyngeal polyps
  inflammatory
    in dog and cat ears, 1165
Neoplasm(s)
  in dog and cat ears, 1173–1175
Neural hearing loss
  canine, 1228
Noise-induced hearing loss
  canine, 1219–1220
Nonneoplastic diseases
  infectious and inflammatory
    in dog and cat ears, 1164–1165
  noninfectious
    in dog and cat ears, 1166–1169
Nonsyndromic deafness
  vs. syndromic deafness
    canine, 1211

O
OAEs. See Otoacoustic emissions (OAEs)
Ocular sympathetic tract
  ear association with, 1146–1147
Ossicles
  auditory
    canine and feline, 1119–1120
Osteopathy
  craniomandibular, 1169
Otitis externa
  chronic proliferative, 1164
  proliferative and necrotizing
    of kittens, 1166
Otitis interna
  deafness related to
    canine, 1220
Otitis media
  primary secretory. See Primary secretory otitis media (PSOM)
Otoacoustic emissions (OAEs)
  canine, 1221
    in electrodiagnostic evaluation of auditory function, 1251–1252
      anatomy and physiology of, 1251
      background of, 1251
      with BAER testing, 1253
      recording and interpretation of, 1251–1252
Ototoxicity
  in dogs and cats, 1259–1271. See also specific agents, e.g., Gentamicin
cisplatin, 1263–1265
deafness related to, 1219
described, 1259–1260
diuretics, 1265–1266
gentamicin, 1261–1263

P
Papilloma
  in dog and cat ears, 1169
Para-auricular abscess
  in dog and cat ears, 1164–1165
Partial deafness
  vs. total deafness
    canine, 1211
Peripheral deafness
  canine
    types of, 1211–1220
    vs. central deafness, 1211
Pigment-associated deafness
  canine, 1214–1215
    screening for
      BAER testing in, 1250–1251
Plasmacytoma
  in dog and cat ears, 1170–1171
Pointers
  deafness in, 1218
Polychondritis
  relapsing
    in dog and cat ears, 1168
Polyp(s)
  nasopharyngeal
  inflammatory
    in dog and cat ears, 1165
Post-myringotomy treatment
  for PSOM in CKCS, 1138–1139
Presbycusis
  canine, 1218–1219
Primary secretory otitis media (PSOM)
  breed predilection for, 1139
  in CKCS, 1137–1142
    clinical signs of, 1138
    described, 1137–1138
    diagnosis of, 1140–1141
    hearing loss and, 1140
    management of, 1141–1142
    pathogenesis of, 1139
    post-myringotomy treatment for, 1138–1139
    tympanostomy tubes and, 1139–1140
Proliferative and necrotizing otitis externa
  of kittens, 1166
Proliferative lesions
  in dog and cat ears, 1165
PSOM. See Primary secretory otitis media (PSOM)

S
Safety issues
  for hearing-impaired dog, 1234–1235
Sarcoïd(s)
  feline, 1174
Sebaceous gland adenoma and adenocarcinoma
  in dog and cat ears, 1173
Sensorineural deafness
  canine, 1213–1214
  feline, 1180
Sensory hearing loss
  canine, 1227–1228
Smell
  sense of
    vs. sense of hearing, 1226
Spiral ganglion, 1188
Springer spaniels
  lichenoid-psoriasiform dermatosis of, 1169
Squamous cell carcinoma
  in dog and cat ears, 1172
Sterile granuloma and pyogranuloma syndrome, 1168
Superior olivary complex
  feline deafness effects on, 1194–1196
Syndromic deafness
  vs. nonsyndromic deafness
canine, 1211

T
Tinnitus
canine, 1221
Tone-pip/tone-burst stimuli
during BAER testing in electrodiagnostic evaluation of auditory function in dogs, 1248
Total deafness
  vs. partial deafness
canine, 1211
Tumor(s)
in dog and cat ears, 1161–1178. See also Ear(s), canine and feline, tumors and tumorlike lesions in
Tumorlike lesions
  in dog and cat ears, 1161–1178. See also Ear(s), canine and feline, tumors and tumorlike lesions in
Tympanic membrane
canine and feline, 1113–1116
Tympanostomy tubes
  PSOM and, 1139–1140

U
Unilateral deafness
  vs. bilateral deafness
canine, 1210–1211

V
Vascular neoplasms
  in dog and cat ears, 1173–1174
Vestibular receptor
  ear association with, 1147–1148
Vestibular syndrome
  ear disease in dogs and cats and, 1151–1156
  clinical presentation of, 1151–1152
  diagnosis of, 1152–1156
  differential diagnosis of, 1156
  management of, 1156
Vestibular system
  canine and feline, 1123–1124

X
Xanthoma
  cutaneous
  in dog and cat ears, 1168
