Index

Note: Page numbers of article titles are in boldface type.

A

Aelurostrongylosis
  feline asthma vs., 93
Airway collapse, 117–127. See also Tracheal (airway) collapse
Airway sampling
  in bacterial pneumonia evaluation, 151–152
  in CCB, 111–112
Allergy testing
  in feline asthma evaluation, 96
Alveolar to arterial oxygen gradient
  in pulmonary gas exchange evaluation, 9–11
Anatomic dead space, 14
Antibacterial(s)
  in feline chronic rhinitis management, 41
Antibiotic(s)
  in pyothorax management, 171–172
  in tracheal (airway) collapse management, 125
Antihistamine(s)
  in feline chronic rhinitis management, 45
Antiinflammatory agents
  in feline chronic rhinitis management, 45–46
Antitussive agents
  in tracheal (airway) collapse management, 124–125
Antiviral agents
  in feline chronic rhinitis management, 43–44
Arterial blood gas analysis
  in IPF evaluation in WHWTs, 133–134
  in pulmonary gas exchange evaluation, 7–9
Aspergillosis
  feline, 51–73
    causes of, 52–53
    classification schemes, 52
    clinical presentation of, 58
    diagnosis of, 60–66
      biochemistry in, 60
      biopsy procedures in, 63–65
      hematology in, 60
      histopathology in, 65–66
      imaging in, 62–63
      serology in, 61–62
      differential diagnosis of, 58–59
      epidemiology of, 53–56

http://dx.doi.org/10.1016/S0195-5616(13)00218-0
vetsmall.theclinics.com
0195-5616/14/$ – see front matter © 2014 Elsevier Inc. All rights reserved.
Aspergillosis (continued)
  introduction, 51–52
  pathogenesis of, 57–58
  prognosis of, 66–68
  treatment of, 66–68
  sino-orbital
    treatment of, 66–68
  sinonasal
    treatment of, 66
Aspiration pneumonia
  in dogs and cats, 143–144
Asthma
  feline, 91–105
    diagnosis of, 94–97
    differential diagnosis of, 92–94
    epidemiology of, 92
    introduction, 91–92
    monitoring in, 100
    pathogenesis of, 92
    patient history in, 92
    physical examination in, 92
    treatment of, 97–100
      experimental therapies in, 98–99
      ineffective therapies in, 99–100
      traditional therapies in, 97–98

B
Bacterial pneumonia
  in dogs and cats, 143–159
    case studies, 155–157
    classification of, 143–147
    clinical signs of, 147
    diagnosis of, 148–153
    introduction, 143
    physical examination of, 147–148
    prognosis of, 155
    treatment of, 153–155
Barometric whole-body plethysmography
  in lung mechanics testing, 7
Bilothorax, 164
Biochemistry
  in feline aspergillosis diagnosis, 60
Biomarkers
  for IPF in WHWTs, 138–139
Biopsy
  in feline aspergillosis diagnosis, 63–65
Bronchitis
  chronic. See Chronic bronchitis
Bronchoalveolar lavage
  in feline asthma evaluation, 95–96
  in IPF evaluation in WHWTs, 135–136
Bronchodilators
in feline asthma management, 97–98
in tracheal (airway) collapse management, 125

Bronchoscopy
in bacterial pneumonia evaluation, 151
in feline asthma evaluation, 95–96
in IPF evaluation in WHWTs, 135–136
in pyothorax management, 172
in tracheal (airway) collapse evaluation, 121–124

Brush cytology
in feline chronic rhinitis diagnosis, 40

C

Canine chronic bronchitis (CCB), 107–116
clinical approach to, 108–112
airway sampling in, 111–112
diagnostic imaging in, 110–111
lung function testing in, 109–110
described, 107
overview of, 107–108
pathophysiology of, 113
prognosis of, 114
pulmonary hypertension and, 114–115
treatment of, 113–114

Canine infectious pneumonia, 144–145

Canine nasal disease, 75–89
case studies, 85–87
clinical findings in, 77–79
diagnostic modalities in, 79–83
introduction, 75–76
pathology of, 83–84

Capnogram
described, 14

Capnography
end-tidal
in pulmonary gas exchange evaluation, 13–16

Capnometer(s)
mainstream, 13
sidestream, 14

Cat(s)
aspergillosis in, 51–73. See also Aspergillosis, feline
asthma in, 91–105. See also Asthma, feline
bacterial pneumonia in, 143–159. See also Bacterial pneumonia, in dogs and cats
chronic rhinitis in, 33–50. See also Chronic rhinitis, feline
laryngeal disease in, 19–31. See also Laryngeal disease, in dogs and cats

CCB. See Canine chronic bronchitis (CCB)

Chronic bronchitis
canine, 107–116. See also Canine chronic bronchitis (CCB)
feline
vs. feline asthma, 93
Chronic rhinitis
  feline, 33–50
    causes of, 33–34
    diagnostic testing for, 35–41
    introduction, 33
    patient history in, 35
    physical examination of, 35
    prognosis of, 46
    treatment of, 41–46
      antibacterials in, 41
      antihistamines in, 45
      antinflammatories in, 45–46
      antiviral agents in, 43–44
      decongestants in, 43
      interferon in, 44
      mucolytics in, 43
      nasal flush in, 41
      nebulization in, 41, 43
      surgery in, 46

Chylothorax, 173–176
  causes of, 173
  clinical findings in, 174
  diagnosis of, 173
  signalment in, 173–174
  treatment of, 174–176

Computed tomography (CT)
  in feline aspergillosis diagnosis, 62–63

Conjunctival swabbing
  in feline chronic rhinitis diagnosis, 37

Cough
  defined, 107

D
  Decongestants
    in feline chronic rhinitis management, 43

Decreased fraction of inspired oxygen
  in pulmonary gas exchange evaluation, 8

Diffusion impairment
  in pulmonary gas exchange evaluation, 8

Dog(s)
  bacterial pneumonia in, 143–159. See also Bacterial pneumonia, in dogs and cats
  chronic bronchitis in, 107–116. See also Canine chronic bronchitis (CCB)
  laryngeal disease in, 19–31. See also Laryngeal disease, in dogs and cats
  nasal disease in, 75–89. See also Canine nasal disease
  West Highland white terriers
    IPF in, 129–142. See also Idiopathic pulmonary fibrosis (IPF), in WHWTs

E
  End-tidal capnography
    in pulmonary gas exchange evaluation, 13–16
Endoscopy
   in feline chronic rhinitis diagnosis, 39

Environmental factors
   in tracheal (airway) collapse management, 124

Epixtaxis
   in feline chronic rhinitis diagnosis, 37

Exudative pleural effusions, 161–180. See also Pleural effusions

F

Famciclovir
   in feline chronic rhinitis management, 44

Flow-volume loops
   in lung mechanics testing, 3

Fluoroscopy
   in tracheal (airway) collapse evaluation, 120

Foreign body(ies)
   pulmonary, 145–146

G

Glucocorticoid(s)
   in feline asthma management, 97
   in feline chronic rhinitis management, 45
   in tracheal (airway) collapse management, 125

H

Head-out whole-body plethysmography
   in lung mechanics testing, 7

Heartworm-associated respiratory disease
   feline asthma vs., 93–94

Heartworm screening
   in tracheal (airway) collapse evaluation, 119–120

Hematology
   in bacterial pneumonia evaluation, 148
   in feline aspergillosis diagnosis, 60

Hemorthorax, 162–164

Histopathology
   in feline aspergillosis diagnosis, 65–66

Hypertension
   pulmonary
      CCB and, 114–115

Hypoventilation
   in pulmonary gas exchange evaluation, 9

I

Idiopathic pulmonary fibrosis (IPF)
   defined, 130
   in WHWTs, 129–142
Idiopathic (continued)
  biomarkers in, 138–139
  cause of, 131–132
  clinical examinations in, 133–136
  clinical signs of, 132–133
  diagnosis of, 133–136
  histopathologic features of, 130–131
  introduction, 129–130
  pathogenesis of, 131–132
  signalment in, 132–133
  treatment of, 136–138

Imaging studies
  in bacterial pneumonia evaluation, 149–151
  in feline aspergillosis diagnosis, 62–63
  in feline chronic rhinitis diagnosis, 38

Immune dysfunction
  in dogs and cats, 146–147

Immunomodulation
  in feline chronic rhinitis management, 46

Immunotherapy
  allergen-specific
    for feline asthma, 98

Infectious airway disease
  feline asthma vs., 94

IPF. See Idiopathic pulmonary fibrosis (IPF)

L

Laryngeal collapse
  in dogs and cats, 26–27

Laryngeal disease
  in dogs and cats, 19–31
    introduction, 19
    laryngeal collapse, 26–27
    laryngeal paralysis, 20–26

Laryngeal masses
  in dogs and cats, 27–29

Laryngeal paralysis
  canine, 20–25
    cause of, 20–21
    clinical signs of, 21
    diagnosis of, 22–23
    prognosis for, 25
    treatment of
      emergency, 23–24
      medical, 24
      surgical, 24–25
    feline, 25–26

Larynx
  anatomy and physiology of, 19–20

Leukotriene inhibitors
in feline chronic rhinitis management, 45–46
Lidocaine
  inhaled
    for feline asthma, 99
Lung compliance
tests of, 3–6
Lung mechanics
  pulmonary function testing of, 2–7. See also Pulmonary function testing, lung mechanics–related
Lung resistance
tests of, 6
Lysine
  in feline chronic rhinitis management, 44

M
Mass(es)
  laryngeal, 27–29
Microbiology
  in bacterial pneumonia evaluation, 152
Mucolytics
  in feline chronic rhinitis management, 43

N
Nasal biopsy
  in feline chronic rhinitis diagnosis, 40–41
Nasal disease
  canine, 75–89. See also Canine nasal disease
Nasal flush
  in feline chronic rhinitis diagnosis, 38–39
  in feline chronic rhinitis management, 41
Nasal swabbing
  in feline chronic rhinitis diagnosis, 37
Nebulization
  in feline chronic rhinitis management, 41, 43
Nonsteroidal antiinflammatory drugs (NSAIDs)
  in feline chronic rhinitis management, 45
Nosocomial pneumonia
  in dogs and cats, 146
NSAIDs. See Nonsteroidal antiinflammatory drugs (NSAIDs)

O
Omega-3 fatty acids/neutraceuticals
  for feline asthma, 98–99
Oropharyngeal swabbing
  in feline chronic rhinitis diagnosis, 37
Oxygen tension–based indices
  in pulmonary gas exchange evaluation, 9–11
P

Physiologic dead space, 15–16

Plethysmography
  whole-body
    in lung mechanics testing, 6–7

Pleural effusions, 161–180. See also specific types
  anatomy related to, 161–162
  bilothorax, 164
  chylothorax, 173–176
  classification of, 162
  development of, 161–162
  exudative, 161–180
  hemothorax, 162–164
  pyothorax, 164–172
  types of, 162

Pneumonia(s)
  aspiration
    in dogs and cats, 143–144
  bacterial
    in dogs and cats, 143–159. See also Bacterial pneumonia, in dogs and cats
    canine infectious, 144–145
  nosocomial
    in dogs and cats, 146
  ventilator-associated
    in dogs and cats, 146

Pulmonary function testing
  in bacterial pneumonia evaluation, 152–153
  in CCB, 109–110
  described, 1–7
  in feline asthma evaluation, 96–97
  updates on, 1–18
    lung mechanics–related, 2–7
      lung compliance, 3–6
      lung resistance, 6
      spirometry in, 2
      tidal breathing flow-volume loops in, 2
      whole-body plethysmography, 6–7
  pulmonary gas exchange–related tests, 7–16. See also Pulmonary gas exchange,
    tests of

Pulmonary gas exchange
  tests of, 7–16
    arterial blood gas analysis, 7–9
    end-tidal capnography, 13–16
    oxygen tension–based indices, 9–11
    pulse oximetry, 11–13

Pulmonary hypertension
  CCB and, 114–115

Pulse oximetry
  in pulmonary gas exchange evaluation, 11–13

Pyothorax, 164–172
causes of, 164–165
clinical features of, 167
clinicopathologic findings in, 167
diagnosis of, 165
diagnostic imaging in, 167–168
microbiology of, 165–166
prognosis of, 172
signalment in, 166
treatment of, 168–172

R
Radiography
in bacterial pneumonia evaluation, 148–149
in tracheal (airway) collapse evaluation, 120
Respiratory disease
heartworm-associated
   feline asthma vs., 93–94
Rhinitis
   chronic
      feline, 33–50. See also Chronic rhinitis, feline

S
Serology
   in feline aspergillosis diagnosis, 61–62
Sino-orbital aspergillosis
   treatment of, 66–68
Sinonasal aspergillosis
   treatment of, 66
Spirometry
   in lung mechanics testing, 2
Stem cells
   for feline asthma, 99

T
Thoracic lavage
   in pyothorax management, 170–171
Tidal breathing flow-volume loops
   in lung mechanics testing, 3
Toxocariasis
   feline asthma vs., 94
Tracheal (airway) collapse, 117–127
   cause of, 118
   diagnosis of, 119–124
   introduction, 117
   pathophysiology of, 118
   patient history in, 118–119
   physical examination in, 119
   prognosis of, 126
   treatment of, 124–126
True right-to-left shunting
  in pulmonary gas exchange evaluation, 8
Tyrosine kinase inhibitors
  for feline asthma, 99

V
VAP. See Ventilator-associated pneumonia (VAP)
Ventilation-perfusion (VQ) mismatch
  in pulmonary gas exchange evaluation, 8
Ventilator-associated pneumonia (VAP)
  in dogs and cats, 146

W
West Highland white terriers (WHWTs)
  IPF in, 129–142. See also Idiopathic pulmonary fibrosis (IPF), in WHWTs
Whole-body plethysmography
  in lung mechanics testing, 6–7
WHWTs. See West Highland white terriers (WHWTs)
