Index

Note: Page numbers of article titles are in boldface type.

A

Aciduria
  L-2 hydroxyglutaric
    in puppies, 280–281

Adenovirus
  in puppies
    2013 update on, 245

Anatomic anomalies
  in juvenile dogs, 314–318

Ankyloglossia
  in dogs, 305

Anticonvulsant(s)
  in seizure disorder management in puppies and kittens, 290–296
    benzodiazepines, 294
    bromide, 292
    felbamate, 293–294
    gabapentin, 293
    levetiracetam, 292
    monitoring of, 295–296
    phenobarbital, 291–292
    pregabalin, 293
    zonisamide, 292–293

B

Benign prostatic hypertrophy (BPH)
  decreased risk of
    pediatric gonadectomy and, 224

Benzodiazepines
  in seizure disorder management in puppies and kittens, 294

Bitch(es)
  pregnant and lactating
    nutrition for, 265–267

Bordetella spp.
  in kittens
    vaccine for
      2013 update on, 253
  in puppies
    vaccine for
      2013 update on, 247

Bordetellosis
  in cats, 335–336
Boric acid
  in flea control, 364
Borreliosis
  in puppies
    vaccine for
      2013 update on, 248
BPH. See Benign prostatic hypertrophy (BPH)
Bromide
  in seizure disorder management in puppies and kittens, 292

C
Canine adenovirus type 1
  vaccine for
    2013 update on, 250
Canine corona virus
  vaccine for
    2013 update on, 249–250
Canine distemper virus (CDV)
  2013 update on, 239–245
Canine infectious respiratory disease (CIRD)
  holistic pediatric veterinary medicine for, 361–362
Canine influenza virus
  vaccine for
    2013 update on, 249
Canine oral papillary squamous cell carcinoma (COPSCC)
  in juvenile dogs, 319–321
Canine papillomatosis
  in juvenile dogs, 318–319
Cardiopulmonary resuscitation
  for neonates, 194–196
Cat(s)
  URTD in, 331–342. See also Upper respiratory tract disease (URTD), pediatric feline
Chiropractic therapy, 358
Chlamydiosis
  in cats, 335
  in kittens
    vaccine for
      2013 update on, 252–253
CIRD. See Canine infectious respiratory disease (CIRD)
Cleft lip
  in dogs, 305–307
Cleft palate
  in dogs, 305–307
  in Labrador retriever
    delayed operative revision for, 325–329
Clinical pathology
  pediatric, 205–219. See also Neonatal clinical pathology
Colostrum
  immune system effect of
    in puppies and kittens, 268–270
COPSCC. See Canine oral papillary squamous cell carcinoma (COPSCC)
Cryptococcosis
  in puppies and kittens, 288–289
Cyst(s)
  dentigerous
    in juvenile dogs, 314

D

Deciduous dentition
  normal
    in dogs, 303–304
Deciduous teeth
  endodontal disease in
    in dogs, 308
  exodontics of
    in dogs, 308–309
Demodiocosis
  holistic pediatric veterinary medicine for, 363–364
Dentigerous cysts
  in juvenile dogs, 314
Dentistry
  canine pediatric, 303–324
    delayed eruption of teeth, 307
    developmental anomalies, 305–307
      in juvenile dogs, 314–318
    endodontal disease in deciduous teeth, 308
    exodontics of deciduous teeth, 308–309
    malocclusions, 309–314. See also Malocclusions, in dogs
    normal deciduous dentition, 303–304
    normal occlusion, 309
    persistent deciduous teeth, 307
Dermatitis
  flea allergy
    holistic pediatric veterinary medicine for, 364
Dermatologic disease
  holistic pediatric veterinary medicine for, 363–364
Developmental dental anomalies
  in dogs, 305–307
    juvenile, 314–318
Distemper
  canine, 286–287
    in puppies
      2013 update on, 239–245
Dog(s)
  pediatric dentistry for, 303–324. See also Dentistry, canine pediatric

E

Ectopia
  urinary
    diagnosis and management of, 343–353
Ectopic ureter (EU)
  defined, 343
Enamel hypoplasia
  generalized
    in juvenile dogs, 317–318
  localized
    in juvenile dogs, 317
Endodontal disease
  in deciduous teeth
  in dogs, 308
Epilepsy
  in puppies, 290
EU. See Ectopic ureter (EU)

F
Felbamate
  in seizure disorder management in puppies and kittens, 293–294
Feline calicivirus (FCV) infection, 333–335
  vaccine for
    2013 update on, 251
Feline herpesvirus I (FHV-I), 332–333
  vaccine for
    2013 update on, 250–251
Feline immunodeficiency virus (FIV)
  in kittens, 289–290
  vaccine for
    2013 update on, 253–254
Feline infectious peritonitis (FIP)
  vaccine for
    2013 update on, 254–255
Feline injection-site sarcomas (FISSs), 255–258
Feline leukemia virus (FeLV)
  vaccine for
    2013 update on, 252
Feline panleukopenia virus
  vaccine for
    2013 update on, 250
Feline upper respiratory disease. See also Upper respiratory tract disease (URTD), pediatric feline
  holistic pediatric veterinary medicine for, 362
FeLV. See Feline leukemia virus (FeLV)
FHV-I. See Feline herpesvirus I (FHV-I)
FIP. See Feline infectious peritonitis (FIP)
FISSs. See Feline injection-site sarcomas (FISSs)
FIV. See Feline immunodeficiency virus (FIV)
Flea allergy dermatitis
  holistic pediatric veterinary medicine for, 364

G
Gabapentin
  in seizure disorder management in puppies and kittens, 293
Gastroenteritis
Index

holistic pediatric veterinary medicine for, 359–361
Generalized enamel hypoplasia
  in juvenile dogs, 317–318
GME. See Granulomatous meningoencaphalomyelitis (GME)
Gonadectomy
  pediatric, 221–233
    anesthesia and surgery for, 222–223
    benefits of, 223–235
    defined, 221
    detriments of, 225–227
    introduction, 221
Granulomatous meningoencaphalomyelitis (GME)
  in puppies, 281–283

H
Helminth infestations
  holistic pediatric veterinary medicine for, 360
Hematopoietic system
  pediatric clinical pathology of, 206–207
Hepatobiliary system
  pediatric clinical pathology of, 212–216
Holistic pediatric veterinary medicine, 355–366
  for CIRD, 361–362
  common complementary and alternative medicine modalities, 356–359
    chiropractic therapy, 358
    homeopathy, 357–358
    manual therapy, 358–359
    TCM, 356–357
  for dermatologic disease, 363
  for feline upper respiratory disease, 362
  for gastroenteritis, 359–361
  for helminth infestations, 360
  individual nature of health and disease, 355–356
  for infection-associated respiratory disease, 361
  perspective of, 355–356
  progression of disease, 356
  for protozoal infections, 360
  resources for, 364–365
  treating whole patient, 356
Homeopathy, 357–358
Hydrocephalus
  in puppies, 278–280
Hypersensitivity
  vaccinations and, 258–259
Hypoglycemia
  in neonates, 203–204

I
Immunity
  in neonatal resuscitation, 201–203
Immunology
  basic, 236–237
Infection-associated respiratory disease
  holistic pediatric veterinary medicine for, 361–362
Infectious diseases
  in puppies and kittens, 284–285
Intrinsic tooth discoloration
  in juvenile dogs, 318

J
Juvenile dogs
  anatomic anomalies in, 314–318
  oral tumors in, 318–321

K
Kitten(s)
  nutrition for
    supplements affecting immune system, 268–271
    orphaned
      milk replacers for, 271–272
  seizure disorders in, 275–301. See also Seizure disorders, in puppies and kittens
    cryptococcosis, 288–289
    FIP, 289–290
    infectious diseases, 284–285
    toxoplasmosis, 287–288
  URTD in, 331–342. See also Upper respiratory tract disease (URTD), pediatric feline
    vaccination in
      2013 update on, 235–239, 250–260. See also Vaccination, in kittens, 2013 update on

L
L-2 hydroxyglutaric aciduria
  in puppies, 280–281
Labrador retriever
  cleft palate in
    delayed operative revision for, 325–329
Leptosporosis
  in puppies
    vaccine for
      2013 update on, 246–247
Levetiracetam
  in seizure disorder management in puppies and kittens, 292
Lipid(s)
  pediatric clinical pathology related to, 216–217
Lissencephaly
  in puppies, 281
Localized enamel hypoplasia
  in juvenile dogs, 317
M

Malocclusions
  in dogs, 309–314
    commonly observed, 310–312
    treatment of, 312–314

Mammary neoplasia
  decreased risk of
    pediatric gonadectomy and, 224

Manual therapy, 358–359

Measles
  in puppies
    vaccine for
      2013 update on, 248–249

Meningoencephalomyelitis
  granulomatous
    in puppies, 281–283

Microglossia
  in dogs, 305

Milk replacers
  for orphaned puppies and kittens, 271–272

Minerals
  pediatric clinical pathology related to, 217–218

Mycoplasma infections
  in cats, 336

N

Necrotizing encephalitis (NLE)
  in puppies, 283–284

Neonatal clinical pathology, 205–219
  hematopoietic system, 206–207
  hepatobiliary system, 212–216
  introduction, 205
  lipids-related, 216–217
  minerals-related, 217–218
  urinary system, 207–212

Neonatal period
  defined, 191
  mortality data, 191

Neonatal resuscitation, 191–204
  cardiopulmonary, 194–196
  failure to respond to
    causes of, 197–198
  husbandry: the first days, 199–200
  immunity and, 201–203
  introduction, 191–196
  optimal
    described, 192–193
    umbilical cord management after, 198–199
    warmth in, 201
    when to stop, 198
Neonatal resuscitation kit
   contents of, 203–204
Neonate(s)
   hypoglycemia in, 203–204
   nutrition in, 203–204
Neoplasia
   mammary
      decreased risk of
         pediatric gonadectomy and, 224
   pediatric gonadectomy and, 226
   testicular
      decreased risk of
         pediatric gonadectomy and, 224–225
Neosporosis
   in puppies, 287
Neutering
   pediatric, 221–233. See also Gonadectomy, pediatric
NLE. See Necrotizing encephalitis (NLE)
Nutrition
   pediatric, 265–273
      introduction, 265
      for puppies
         orphaned
            milk replacers for, 271–272
            supplements affecting immune system, 268–271
            weaning to 6 months, 267–268
      for pregnant and lactating bitches, 265–267
O
Obesity
   pediatric gonadectomy and, 226
Occlusion
   normal
      in dogs, 309
Odontomas
   in juvenile dogs, 318
Oral tumors
   in juvenile dogs, 318–321
Orthopedic problems
   pediatric gonadectomy and, 226–227
Otitis externa
   holistic pediatric veterinary medicine for, 363
P
Papillomatosis
   in juvenile dogs, 318–319
Parainfluenza
   in puppies
      vaccine for
         2013 update on, 247–248
Parvovirus
  in puppies
    2013 update on, 245–246
Pediatric clinical pathology, 205–219. See also Neonatal clinical pathology
Pediatric gonadectomy, 221–233. See also Gonadectomy, pediatric
Pediatric neutering, 221–233
Pediatric nutrition, 265–273. See also Nutrition, pediatric
Peritonitis
  feline infectious
    vaccine for
      2013 update on, 254–255
Persistent deciduous teeth
  in dogs, 307
Phenobarbital
  in seizure disorder management in puppies and kittens, 291–292
Portosystemic shunts (PSSs)
  in puppies, 276–278
Prebiotics
  for pregnant and lactating bitches, 266–267
Pregabalin
  in seizure disorder management in puppies and kittens, 293
Probiotics
  immune system effect of
    in puppies and kittens, 270–271
Protozoal infections
  holistic pediatric veterinary medicine for, 360
PSSs. See Portosystemic shunts (PSSs)
Puppy(ies)
  dentistry for, 303–324. See also Dentistry, canine pediatric
    nutrition for
      supplements affecting immune system, 268–271
      weaning to 6 months, 267–268
    orphaned
      milk replacers for, 271–272
  seizure disorders in, 275–301
    cryptococcosis, 288–289
    distemper, 286–287
    epilepsy, 290
    GME, 281–283
    hydrocephalus, 278–280
    infectious diseases, 284–285
    L-2 hydroxyglutaric aciduria, 280–281
    lissencephaly, 281
    neosporosis, 287
    NLE, 283–284
    PSSs, 276–278
  vaccination in
    2013 update on, 235–250, 255–260. See also Vaccination, in puppies, 2013 update on
Pyometra
  decreased risk of
    pediatric gonadectomy and, 224
Rabies
in kittens
  vaccine for
    2013 update on, 251–252
in puppies
  2013 update on, 246
Rattlesnake vaccine
  in puppies
    2013 update on, 249
Respiratory disease
  infection-associated
    holistic pediatric veterinary medicine for, 361–362
Resuscitation
  cardiopulmonary
    for neonates, 194–196
    neonatal, 191–204. See also Neonatal resuscitation

S
Seizure disorders
  in puppies and kittens, 275–301
    anticonvulsants in management of, 290–296. See also Anticonvulsant(s), in seizure disorder management in puppies and kittens
cryptococcosis, 288–289
distemper, 286–287
epilepsy, 290
FIV, 289–290
GME, 281–283
hydrocephalus, 278–280
infectious diseases, 284–285
introduction, 275–276
L-2 hydroxyglutaric aciduria, 280–281
lissencephaly, 281
neosporosis, 287
NLE, 283–284
PSSs, 276–278
toxoplasmosis, 287–288
Streptococcus infections
  in cats, 336–337

T
TCM. See Traditional Chinese Medicine (TCM)
Teeth
  deciduous
    endodontal disease in
      in dogs, 308
    exodontics of
      in dogs, 308–309
    persistent
      in dogs, 307
endodontal disease, 308
delayed eruption of
  in dogs, 307
number of
  abnormalities in
    in juvenile dogs, 316–317
Testicular neoplasia
decreased risk of
  pediatric gonadectomy and, 224–225
Tooth discoloration
  intrinsic
    in juvenile dogs, 318
Toxoplasmosis
  in kittens, 287–288
Traditional Chinese Medicine (TCM), 356–357
Type I hypersensitivity
  vaccinations and, 258–259
Type II hypersensitivity
  vaccinations and, 259
Type III hypersensitivity
  vaccinations and, 259
Type IV hypersensitivity
  vaccinations and, 259

U
Umbilical cord management
  after neonatal resuscitation, 198–199
Upper respiratory tract disease (URTD)
  pediatric feline, 331–342
    bordetellosis, 335–336
    chlamydiosis, 335
    diagnosis of, 337–338
    FCV, 333–335
    FHV-1 infection, 332–333
    introduction, 331–332
    mycoplasma infections, 336
    prevention of, 339–340
    Streptococcus infections, 336–337
    treatment of, 338–339
Ureter
  ectopic
    defined, 343
Urinary ectopia
  diagnosis and management of, 343–353
Urinary system
  pediatric clinical pathology of, 207–212
URTD. See Upper respiratory tract disease (URTD)

V
Vaccination
  in kittens
Vaccination (continued)

2013 update on, 235–239, 250–260
  adverse events associated with, 255–259
  *Bordetella* spp., 253
  chlamydiosis, 252–253
  core vaccines, 250–252
  feline calicivirus, 251
  feline panleukopenia virus, 250
  FeLV, 252
  FHV-I, 250–251
  FIP, 254–255
  FISSs, 255–258
  FIV, 253–254
  noncore vaccines, 252–253
  rabies, 251–252
  special circumstances, 259–260

in puppies

2013 update on, 235–250, 255–260
  adenovirus, 245
  adverse events associated with, 258–259
  *Bordetella* spp., 247
  borreliosis, 248
  canine adenovirus type 1, 250
  canine corona virus, 249–250
  canine influenza virus, 249
  core vaccines, 239–246
  distemper, 239–245
  general recommendations, 239
  guidelines development using risk assessment, 237–238
  leptosporosis, 246–247
  measles, 248–249
  noncore vaccines, 246–249
  parainfluenza, 247–248
  parvovirus, 245–246
  rabies, 246
  rattlesnake vaccine, 249
  special circumstances, 259–260
  types of vaccines, 238

W

Warmth
  in neonatal resuscitation, 201

X

X-linked hypohidrotic ectodermal dysplasia
  in juvenile dogs, 317

Z

Zonisamide
  in seizure disorder management in puppies and kittens, 292–293
