Erratum

An error was made in the July 2019 issue of Veterinary Clinics: Small Animal Practice (Volume 49, Issue 4, p. 703-718) in the article “Optimal Vector-borne Disease Screening in Dogs Using Both Serology-based and Polymerase Chain Reaction-based Diagnostic Panels” by Dr. Linda Kidd.

On page 713, under the subheading "serology" the sentence: "Serologic crossreactivity with spotted fever group Rickettsia also seems to occur in dogs infected with Bartonella henselae", with reference to reference number 78, is incorrect. They did not find evidence of serologic crossreactivity in that paper.

The print and online versions of the article have now been updated.
